LPA REQUIREMENT #7 – LPA training record

Livestock Production Assurance

LPA accredited producers may undertake a range of training in the management of their livestock business.
Use this template to record training in on-farm practices undertaken by people working on an LPA-accredited PIC.

Under **LPA Requirement 7** - Animal welfare, people responsible for the management of livestock handling must have successfully completed training in relation to the Australian Animal Welfare Standards and Guidelines for cattle, sheep and goats. This may be done through the LPA Learning tool or an equivalent and should be documented.

Training may also be required under **LPA Requirement 2 - Safe and responsible animal treatments** and **Requirement 3 - Fodder crop, grain and pasture treatments, and stock foods** to ensure animal treatments and chemicals are handled and administered correctly.

Person trained	Course name and qualification	Training provider	Training date	Duration	Date to renew / refresh
Peter Adams	*LPA Animal Welfare module*	*LPA Learning*	*2/08/2021*	*20 minutes*	*2022*
Sue Adams	*AQF-3 Chemical Accreditation*	*ChemCert*	*16/11/2021*	*1 day*	*2023*
