Transporters

Are you ready for digital consignments? Follow these steps to get started!

The eNVD Livestock Consignments app is the fast, easy system for completing all livestock consignment forms digitally. eNVD supports end-to-end electronic transfer of livestock consignments including Livestock Production Assurance NVDs, Meat Standards Australia Vendor Declarations, National Health Declarations and National Feedlot Accreditation Scheme forms.

The app means transporters can receive and transfer consignment forms offline, making the process even easier. Digital consignments ensure:

- No damaged or lost paperwork so all regulatory requirements can be met.
- Receive consignments ahead of time direct to your mobile or tablet.

01

Create a myMLA account

It is recommended transporters create a myMLA account to receive eNVDs submitted by producers ahead of time. This streamlines the handover process and ensures you can pick up the consignment if the producer is not available. The guest login will still allow you to receive and transfer eNVDs.

Not eNVD ready?

Need to share your consignment with someone who doesn't have the app or eNVD? Follow these instructions:

- Open the app, tap 'view' in the bottom menu to navigate to 'submitted consignments'
- Tap the three dots at the top right corner of the consignment you wish to share
- From the menu list of options, tap 'share consignment' and send as a link via email or SMS
- The consignment will be exported and shared as a PDF file.

02

Download the eNVD app

03

Receive the consignment from the producer

In service? If you are both online when the consignment is submitted, you will be able to view the consignment in the app and you don't need to meet the producer. Complete your section of the eNVD and sign the declaration.

Out of service? You can still receive the consignment via QR code. Open the app and tap 'receive' at the bottom of the screen to open the camera function to scan QR codes.

For more information about eNVD and the industry's transition to digital, visit integritysystems.com.au/envd-app or contact ISC Customer Service on 1800 683 111.

04

Managing regulatory inspections

Open the app so the authorised officer can review the consignment on the transporter's mobile phone. Alternatively, if the authorised officer has the app installed, they can scan the QR code and review the information on their device.

05

Deliver the consignment to its destination

Once the consignment is submitted by the producer, the receiver will be able to view the consignment in their app or on the eNVD website without any handover required from the transporter.
