

# Webinar for red meat producers

20 July 2021

*Stand by what you sell*

PRESENTED BY:

# INTRODUCTION

1. Welcome and housekeeping
2. Introduce our speaker and panellists
3. Tips to this year's selling season...  
*look out for our Integrity Insights tips!*
4. Q&A with the ISC team
5. Webinar wrap-up

*PS: You'll get a recording and resources emailed to you!*

SUPPORTED NATIONALLY BY:

# Tonight's agenda

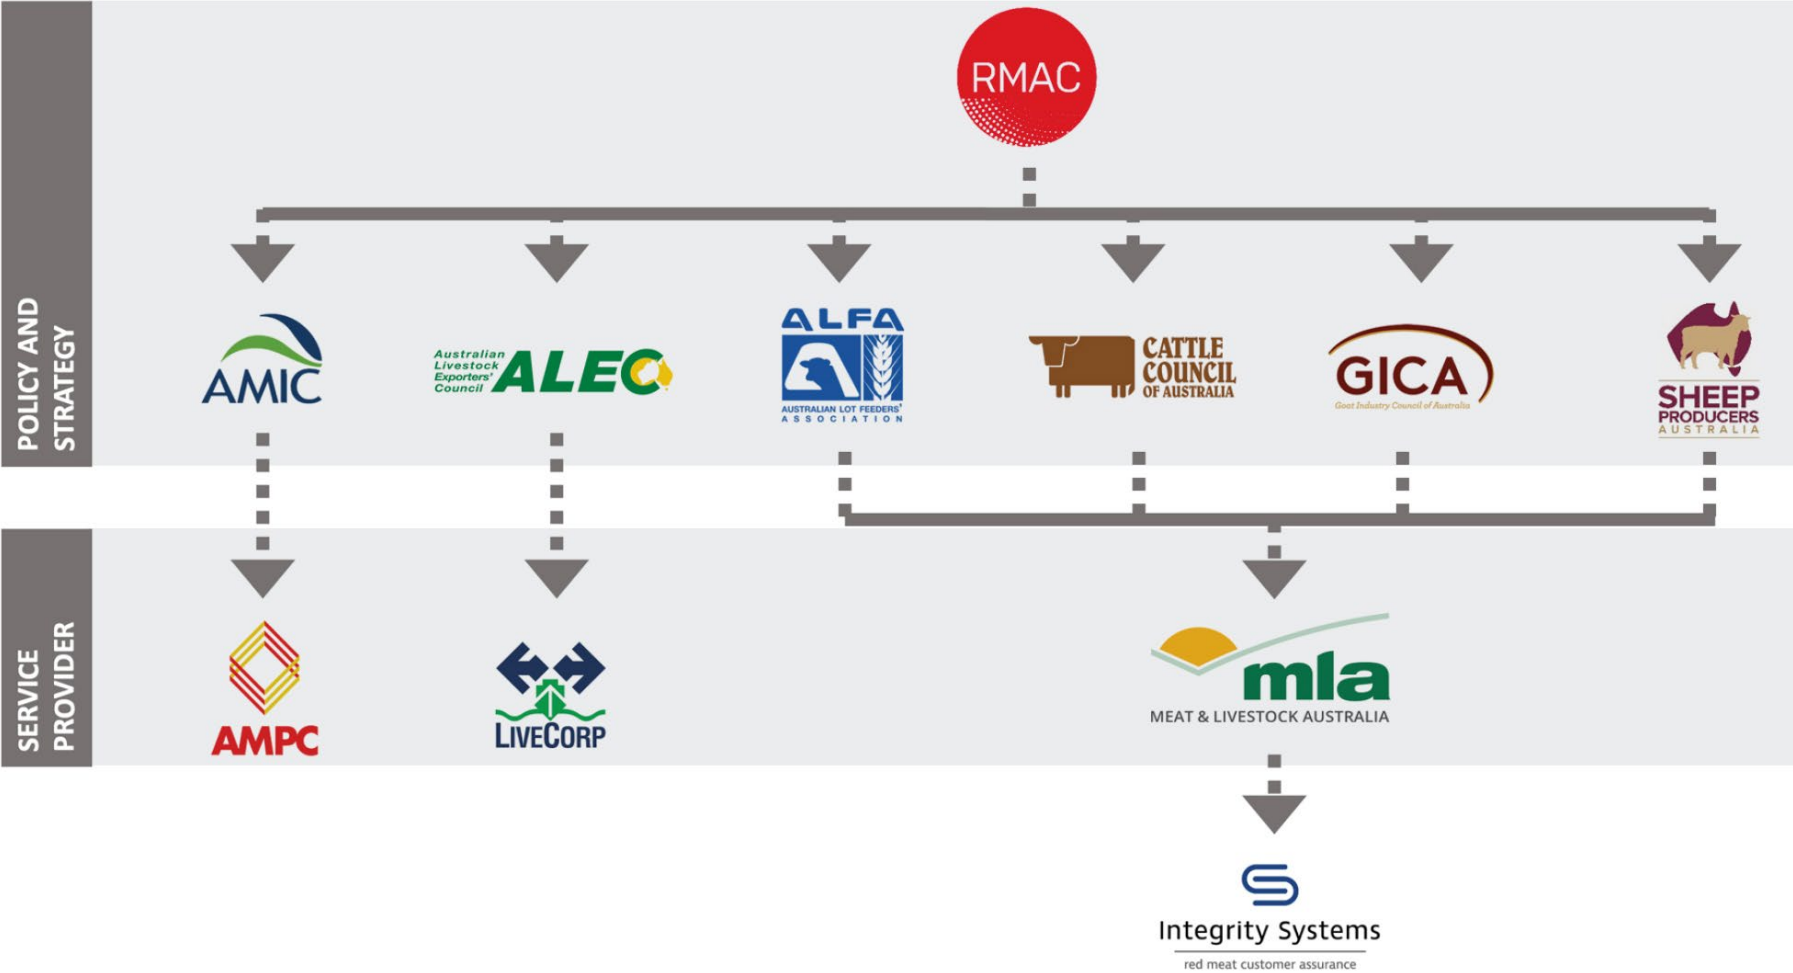

- The role of the Integrity Systems Company
- The importance of the red meat integrity system
- The integrity system programs – LPA and NLIS
- Market update
- LPA accreditation
- Animal identification
- Using the LPA NVD and eNVD
- Ensuring animals are fit to load for transport

# Where Integrity Systems Company (ISC) fits ...

A subsidiary of Meat & Livestock Australia

# About MLA

- Research, development and adoption
- Marketing
- Collaborate with Australian Government and wider red meat industry
- Invest in initiatives that contribute to:
  - ✓ Producer profitability
  - ✓ Sustainability
  - ✓ Global competitiveness

# ISC and the red meat integrity system

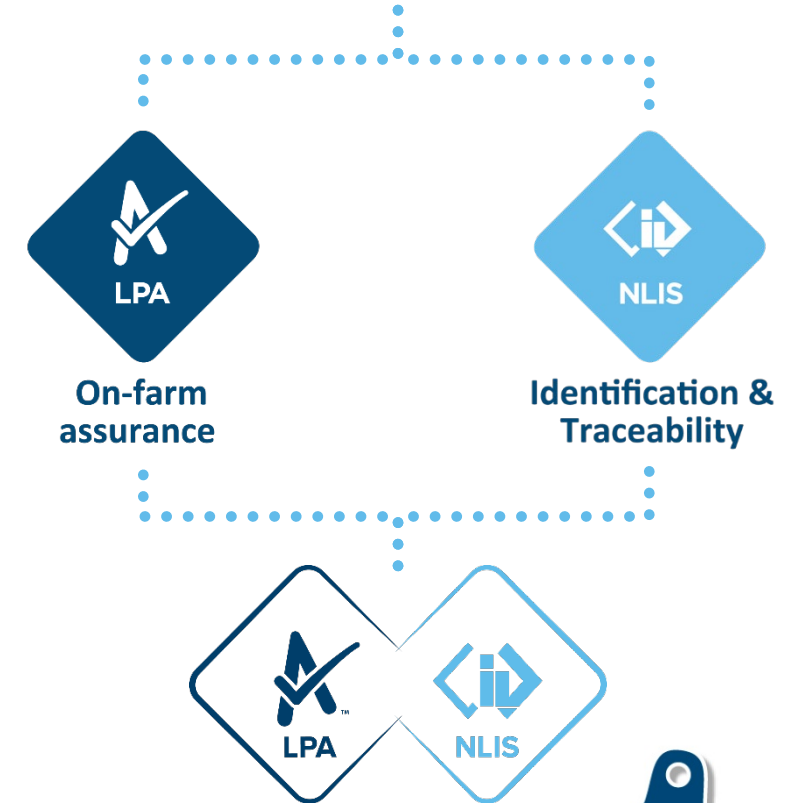

Integrity Systems Company manages and delivers Australia's red meat integrity system which:

- Ensures Australian red meat is safe to eat and fully traceable
- Provides on-farm assurance, animal identification and lifetime traceability
- Underpins the livestock selling system, giving confidence to buyers, retailers and consumers

## Integrity Systems

red meat customer assurance

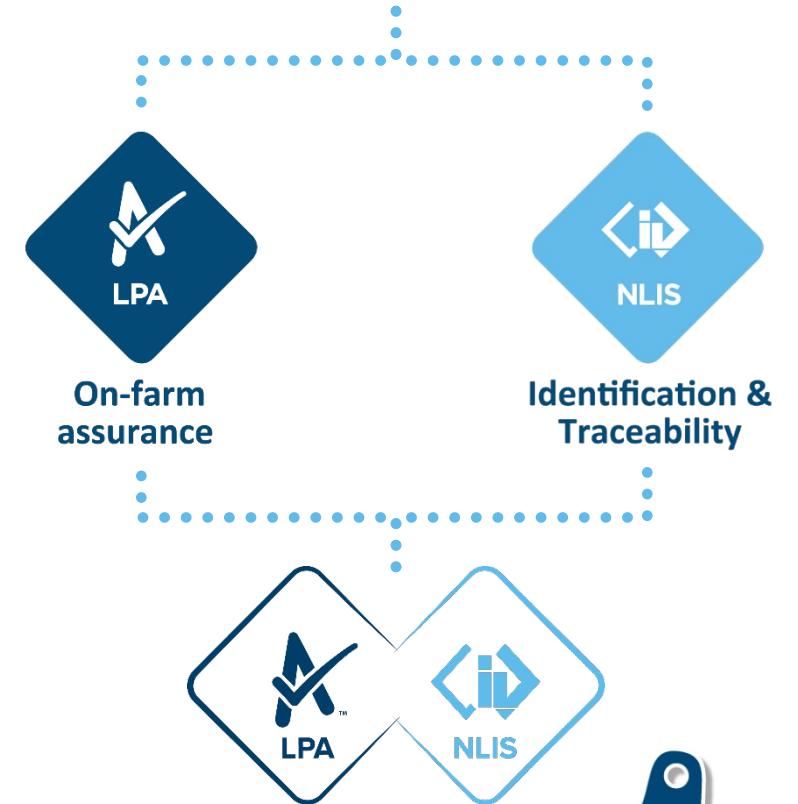

# Meeting the demands of our markets

- The red meat integrity system ensures **both safety and quality** for Australian red meat
- When producers become part of the integrity system **they commit** to producing a product of high quality, agreeing to manage their livestock and farms in accordance with the LPA requirements
- The linkage of LPA and NLIS brings **quality and safety** together

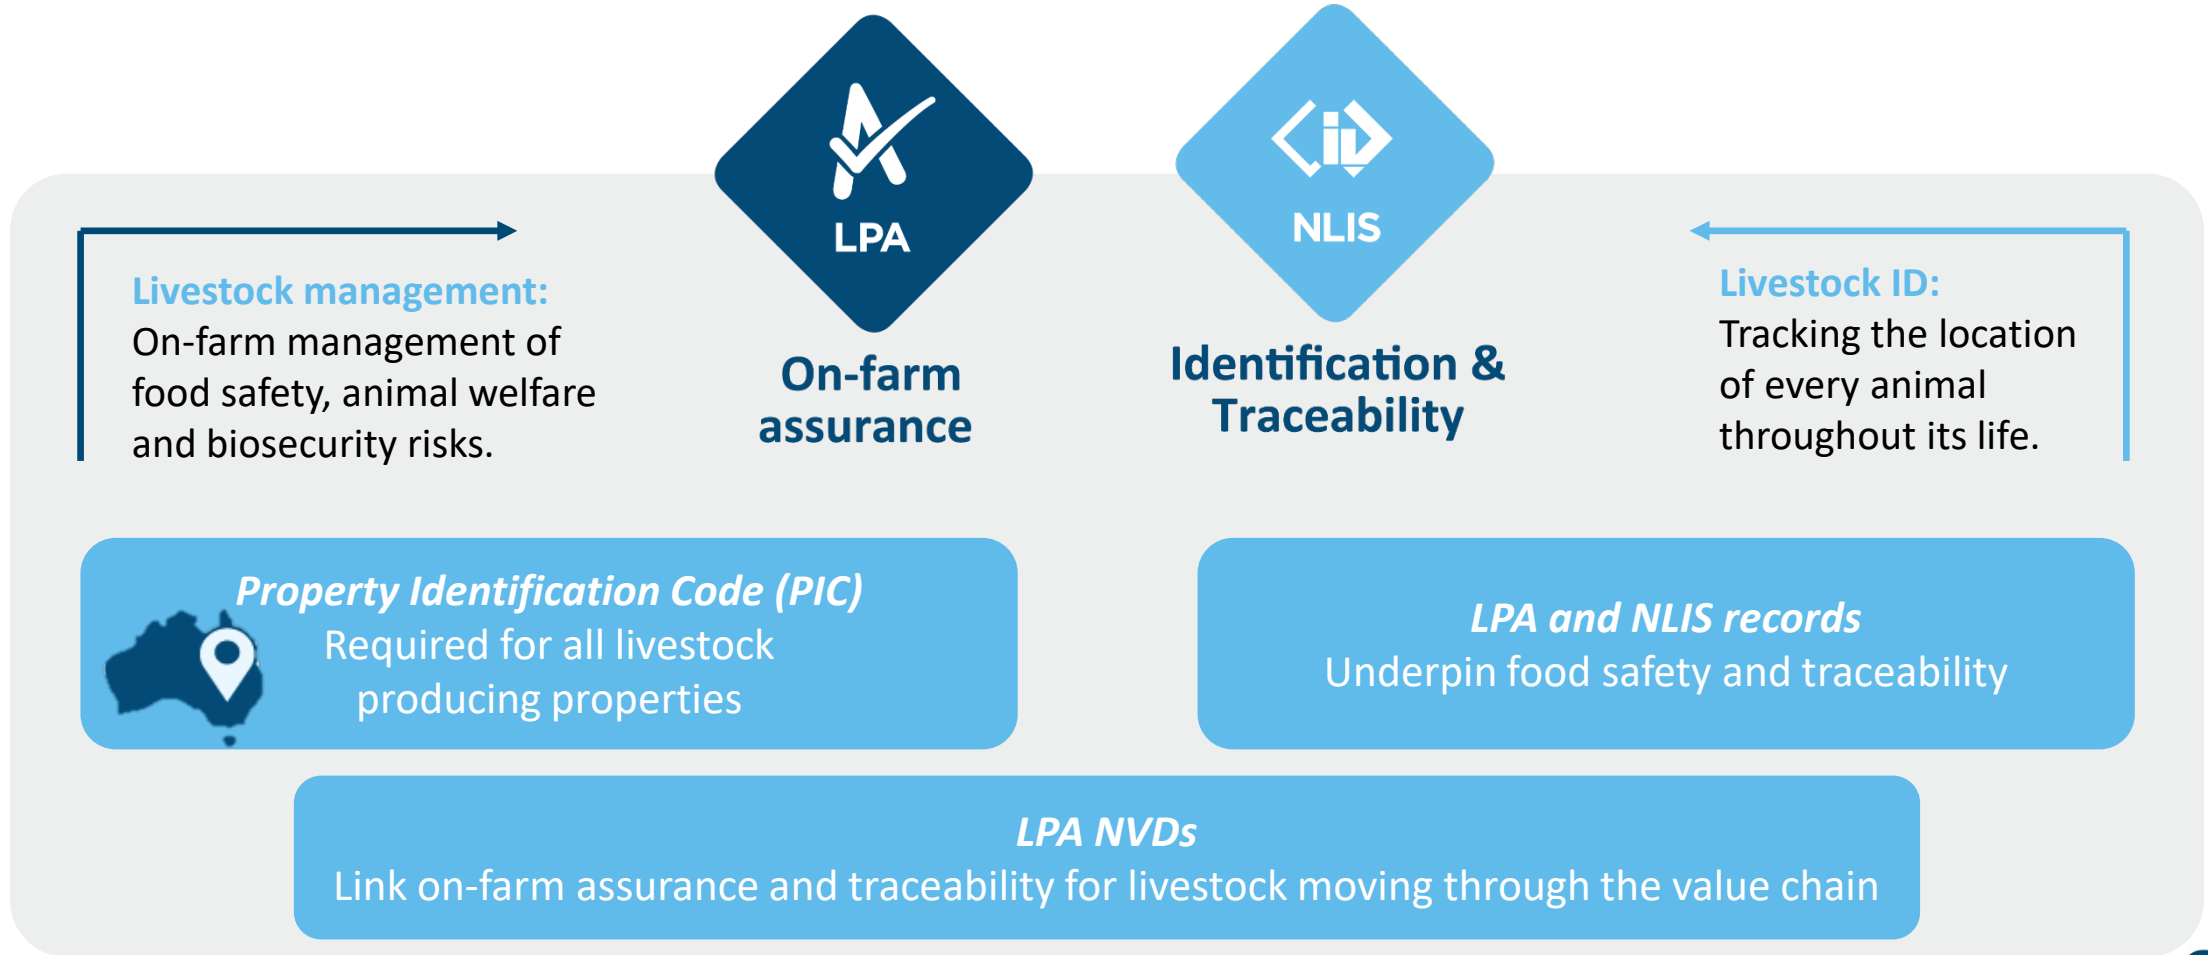

## Integrity Systems

red meat customer assurance

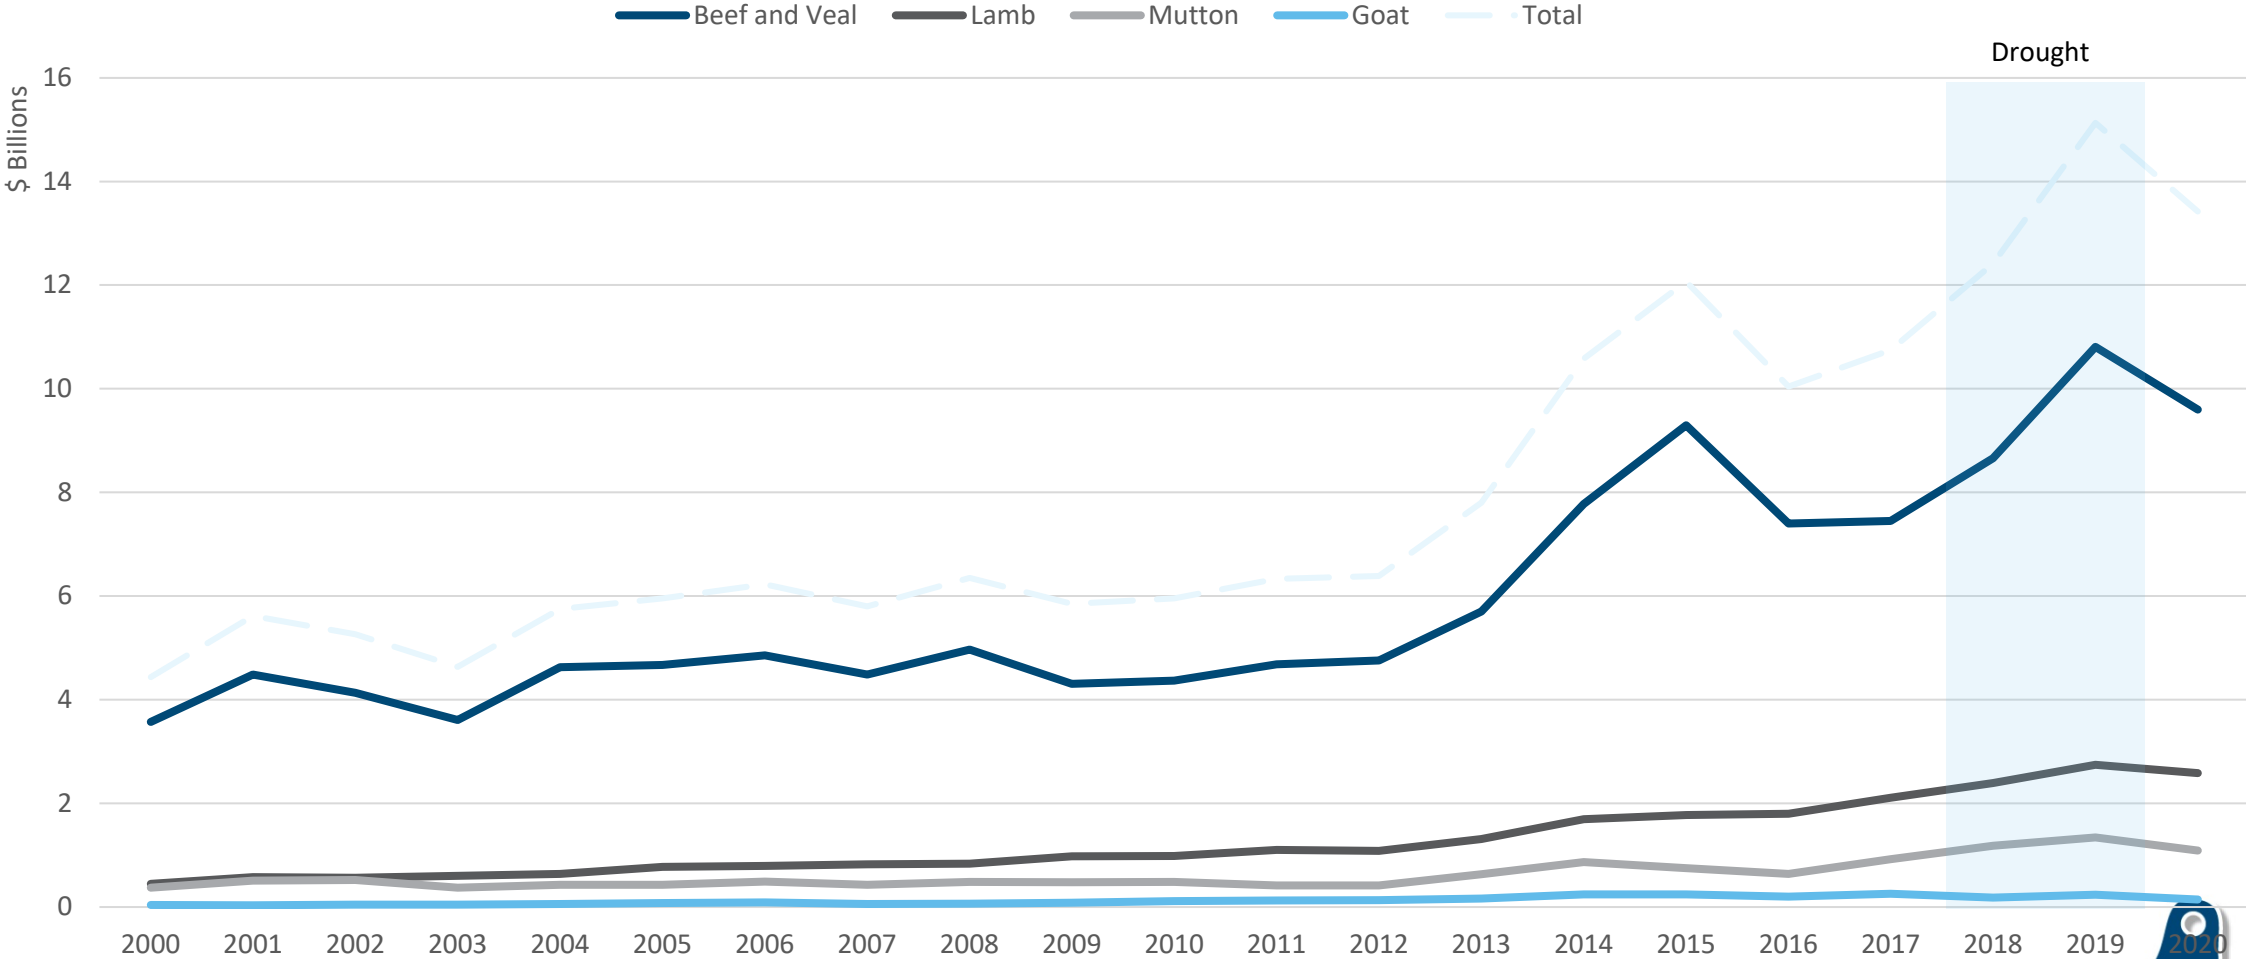

# Two programs underpin **food safety** and **traceability** on-farm

# Red meat export value

Stand by what you sell

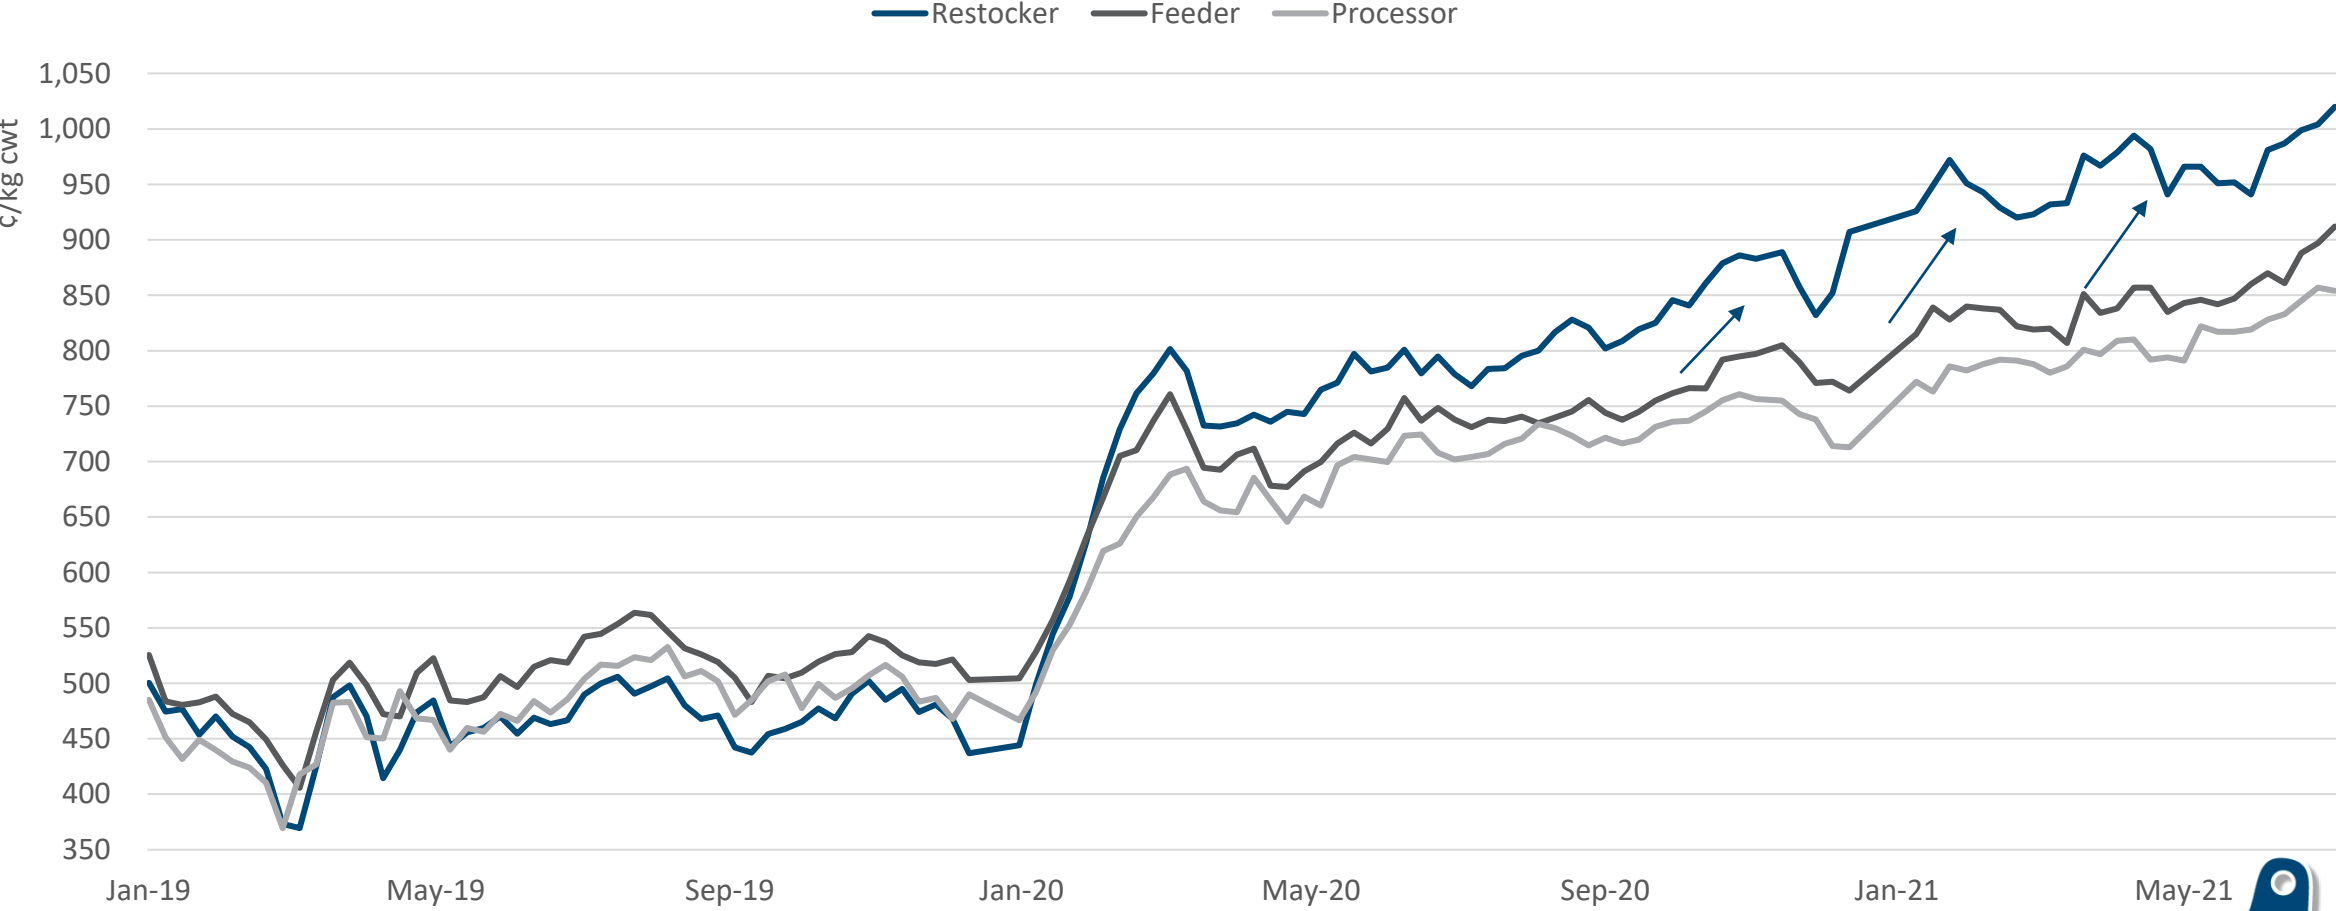

# Heavy Lamb Indicator

Source: MLA's NLRS

# EYCI by buyer type

Source: MLA's NLRS

# Market update - Key takeaways

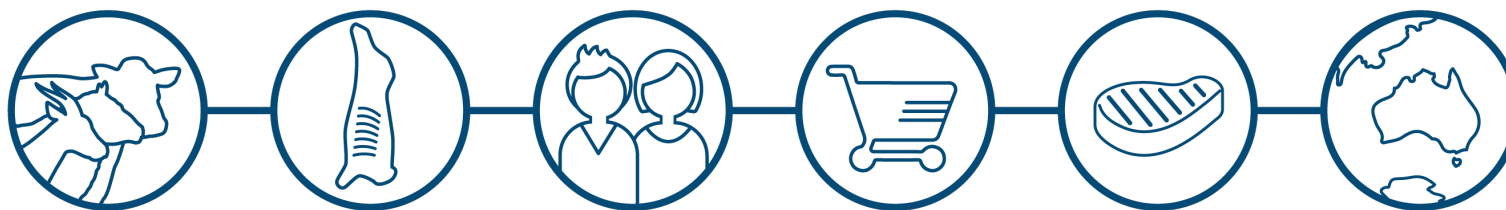

- Producer confidence is high given positive weather outlook, back to back good seasons and increase in international demand
- Despite lower export volumes (particularly beef), higher prices are holding up value
- Prices expected to remain at historically high levels
- Lamb production is solid with more to come, with strong US and China demand
- Mutton prices are nearing record heights
- Domestic cattle market is at it's highest point ever
- Australia continue to outpace other key exporters on price despite global prices lifting
- Global beef trading dynamic is evolving and should be monitored closely

# Can you stand by what you sell?

Practical tips to help producers this selling season

# LPA – what producers need to do

## A. Account and accreditation

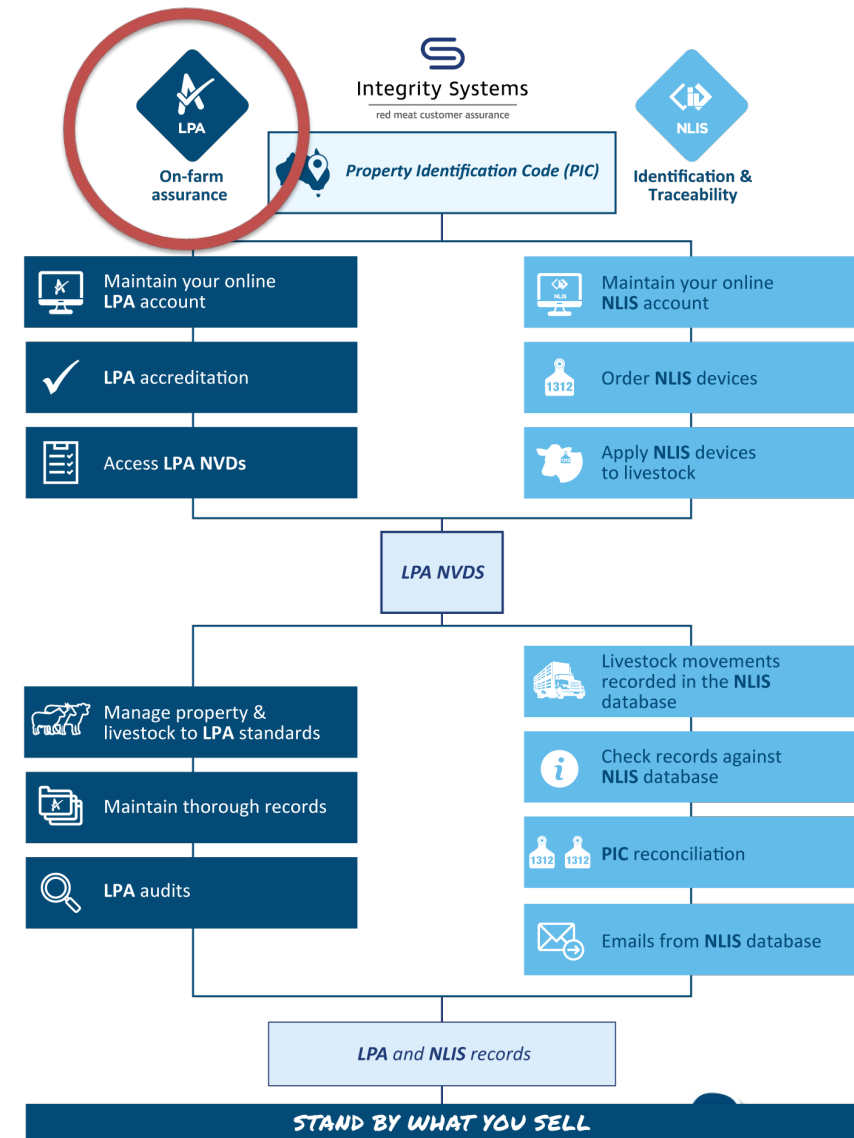

- Keep your online LPA account details up-to-date
- Maintain your LPA accreditation and renew every three years

## B. Meeting the seven requirements

- Manage your property and livestock to the seven LPA requirements
- Keep thorough records as evidence of livestock history and on-farm practices

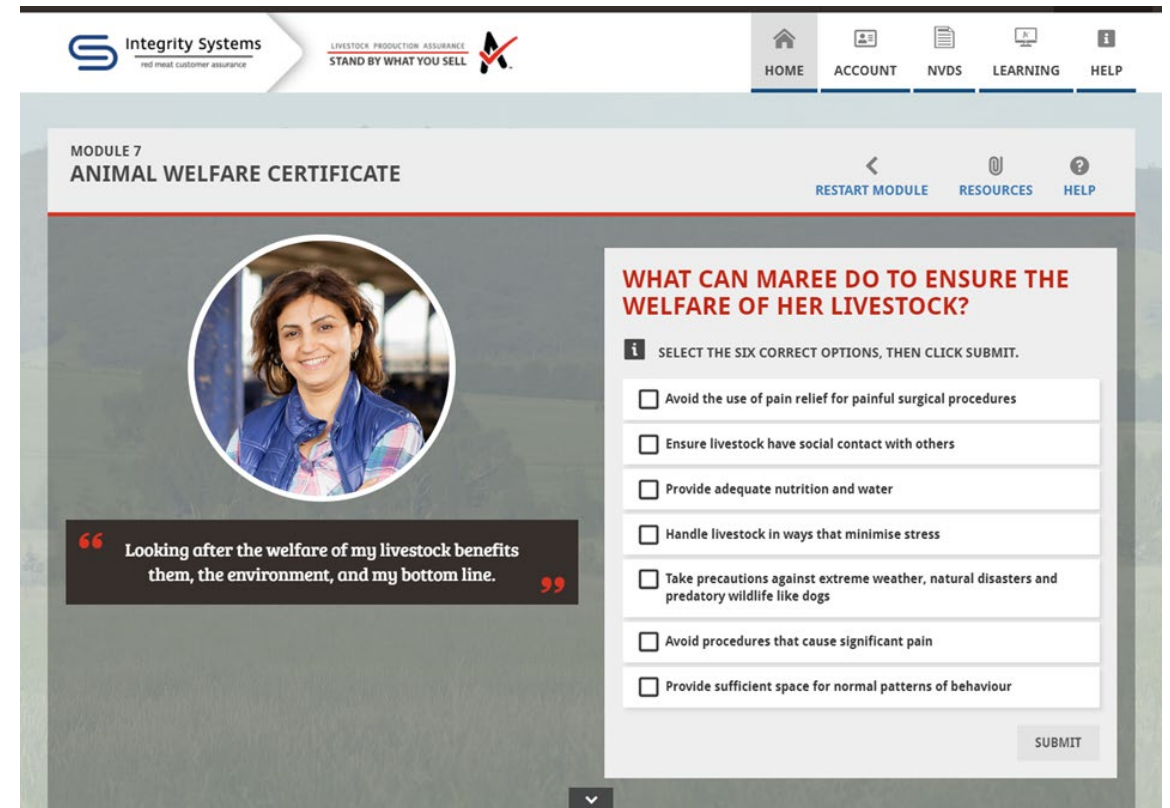

## C. Audits

- Prepare for and participate in an audit, if requested

# A. LPA ... your account and (re)accreditation

- Access and update your account through myMLA: [www.mymla.com.au](http://www.mymla.com.au)
- For new and renewing producers, keep your knowledge up-to-date by completing the LPA Learning Modules
- LPA-accredited producers will need to renew accreditation by completing an assessment every three years
- If your LPA accreditation lapses, you cannot access NVDs
- Saleyards will check to see if your LPA accreditation is up to date

The screenshot displays the myMLA interface for Module 7: Animal Welfare Certificate. At the top, the Integrity Systems logo and the slogan "LIVESTOCK PRODUCTION ASSURANCE STAND BY WHAT YOU SELL" are visible. Navigation links for HOME, ACCOUNT, NVDs, LEARNING, and HELP are present. The main content area features a circular profile picture of a woman and a quote: "Looking after the welfare of my livestock benefits them, the environment, and my bottom line." To the right, a quiz titled "WHAT CAN MAREE DO TO ENSURE THE WELFARE OF HER LIVESTOCK?" asks the user to select six correct options from a list of seven. The options are: "Avoid the use of pain relief for painful surgical procedures", "Ensure livestock have social contact with others", "Provide adequate nutrition and water", "Handle livestock in ways that minimise stress", "Take precautions against extreme weather, natural disasters and predatory wildlife like dogs", "Avoid procedures that cause significant pain", and "Provide sufficient space for normal patterns of behaviour". A "SUBMIT" button is located at the bottom right of the quiz area.

# How to complete LPA accreditation

- For new LPA accounts, the LPA learning will need to be completed.
- For re-accreditation, the welfare module must be re-completed to generate a new animal welfare certificate
- All learning modules should be completed to ensure you are up to date with any changes which may have occurred since the last assessment

LOGGED IN AS: TESTMODE-1174701 LOG OUT myMLA Dashboard

**Integrity Systems**  
red meat customer assurance

LIVESTOCK PRODUCTION ASSURANCE  
STAND BY WHAT YOU SELL

### Three simple steps to complete your LPA accreditation

**Step 1** - Review the LPA learning modules  
**Step 2** - Complete a short and simple assessment  
**Step 3** - Complete the LPA declaration and payment to obtain your LPA accreditation certificate

### LPA Learning Modules

**Step 1** - LPA learning will assist you to ensure your on-farm practices meet LPA requirements and help you prepare for the assessment questions.  
To further increase your awareness of LPA, download the LPA guide book or visit the ISC website.

1. Property risk assessment
2. Safe and responsible animal treatment
3. Stock foods, fodder crops, grain and pasture treatments
4. Preparation for dispatch of livestock
5. Livestock transactions and movements
6. Biosecurity
7. Animal welfare: This must be completed to obtain the required certificate.

**Go Digital with eNVD** [Learn More](#)

You are not yet eligible for the digital discount as you have not recently used eNVD to create a consignment.

### Assessment and declaration

**Step 2** - Complete your LPA accreditation assessment - a series of multiple-choice questions to test your understanding on LPA. (This should take approximately 35 minutes).  
**Step 3** - at the end of the assessment complete the declaration and payment

**Complete now**

If you have completed the assessment for a different PIC within the last six months you can move directly to the declaration for this PIC.

**Apply previous assessment**

# How to complete LPA accreditation

- Commit to using the eNVD for either all or some consignments and you will be eligible for a discount of \$30 on your accreditation fee
- Follow the instructions to access the eNVD and the discount

### Go Digital with eNVD

You are not yet eligible for the digital discount as you have not recently used eNVD to create a consignment.

Get familiar with eNVD and create a draft consignment for access to the digital discount.

Return to this page after completing a draft consignment in eNVD, complete your accreditation and the digital discount will be available.

[Access eNVD](#)

## HOW WOULD YOU LIKE TO COMPLETE YOUR CONSIGNMENTS?

 <b>\$60</b> ex. GST <b>eNVD users automatically receive:</b> <ul style="list-style-type: none"><li>• Unlimited access to free LPA eNVDs and MSA declarations</li><li>• \$30 discount off your LPA accreditation</li><li>• Customer support plus extra help to get you going with digital consignments</li><li>• Paper based options will still be available if required</li><li>• Streamline your auditing and account management</li></ul> <p><a href="#">Proceed with digital option</a></p>	 <b>\$90</b> ex. GST <b>Users Receive:</b> <ul style="list-style-type: none"><li>• Purchase paper based NVD and MSA declarations</li><li>• Full price LPA accreditation</li><li>• Customer support for all your LPA requirements</li><li>• Access free digital LPA eNVDs and MSA declarations at anytime.</li><li>• Standard account management</li></ul> <p><a href="#">Proceed with paper-based option</a></p>
--	---

## B. LPA ... How to meet the seven requirements

- Property risks assessment
- Safe and responsible animal treatments
- Stock foods, fodder crops, grain and pasture treatments
- Preparation for dispatch of livestock
- Livestock transactions and movements
- Biosecurity
- Animal welfare

More detail in the LPA Guidebook →

# LPA tips for selling livestock

- Ensure record keeping is up to date so you can properly complete your NVDs
- Check all livestock you are planning to sell have a working NLIS device
- Ensure livestock are fit to load
- Make sure every NVD is clear, complete and correct or use eNVD for a faster, easier way to complete your consignments
- Make sure the movement has been recorded on the NLIS database

# Record keeping for LPA

- There is no perfect formula when it comes to record keeping.
- Regardless of the method, it is important that all relevant management activities are accurately and clearly recorded
- Your LPA records will be reviewed by an auditor, so it's important to make sure they are accurate and up to date
- Keep records of all staff inductions and trainings

## INTEGRITY INSIGHT

ISC has record keeping templates aligned to the seven LPA requirements.

These are available at:

- [www.integritysystems.com.au](http://www.integritysystems.com.au) ... search for 'record keeping template' on the home page (this is free!)
- Order a hard copy through the LPA website at <https://lpa.nlis.com.au>
- Call ISC Customer Service on 1800 683 111.

# Upload your record keeping to your LPA account

- Records for LPA requirements can be stored in your LPA online account
- **Benefits**
  - All records in one location
  - Retrieve them at any time
  - Easy access for auditing
- A fact sheet for how to create or upload documents in your LPA account can be found on the ISC website. Check the post-webinar email for the link

## INTEGRITY INSIGHT

Property risk assessments and farm biosecurity plans can be completed entirely digitally rather than on a printed template.

## HOW TO: Create or upload documents in your LPA account

Managing records in order to maintain your LPA Accreditation just got simpler!

- Property risk assessment and biosecurity plans can now be completed and saved online
- Templates for other essential LPA documents are available to download
- All LPA records can be stored online within your LPA account.

Good records provide the information required to correctly complete your NVDs, are essential in the event of a biosecurity or animal disease incident and are required for LPA audits.

Step 1 Log in to your LPA account: [lpa.nlis.com.au](http://lpa.nlis.com.au)

Step 2 Go to Record Keeping on the home page.

# Livestock transportation

- Livestock must not be stressed or injured prior to loading
- Producers must adhere to maximum time off water requirements and pre-consignment curfews
- Choose transport operators who operate in accordance with a recognised quality assurance program: [www.trucksafe.com.au](http://www.trucksafe.com.au)
- Inspect vehicles prior to livestock transportation

## INTEGRITY INSIGHT

Keep a copy handy:  
Is the animal fit to load?

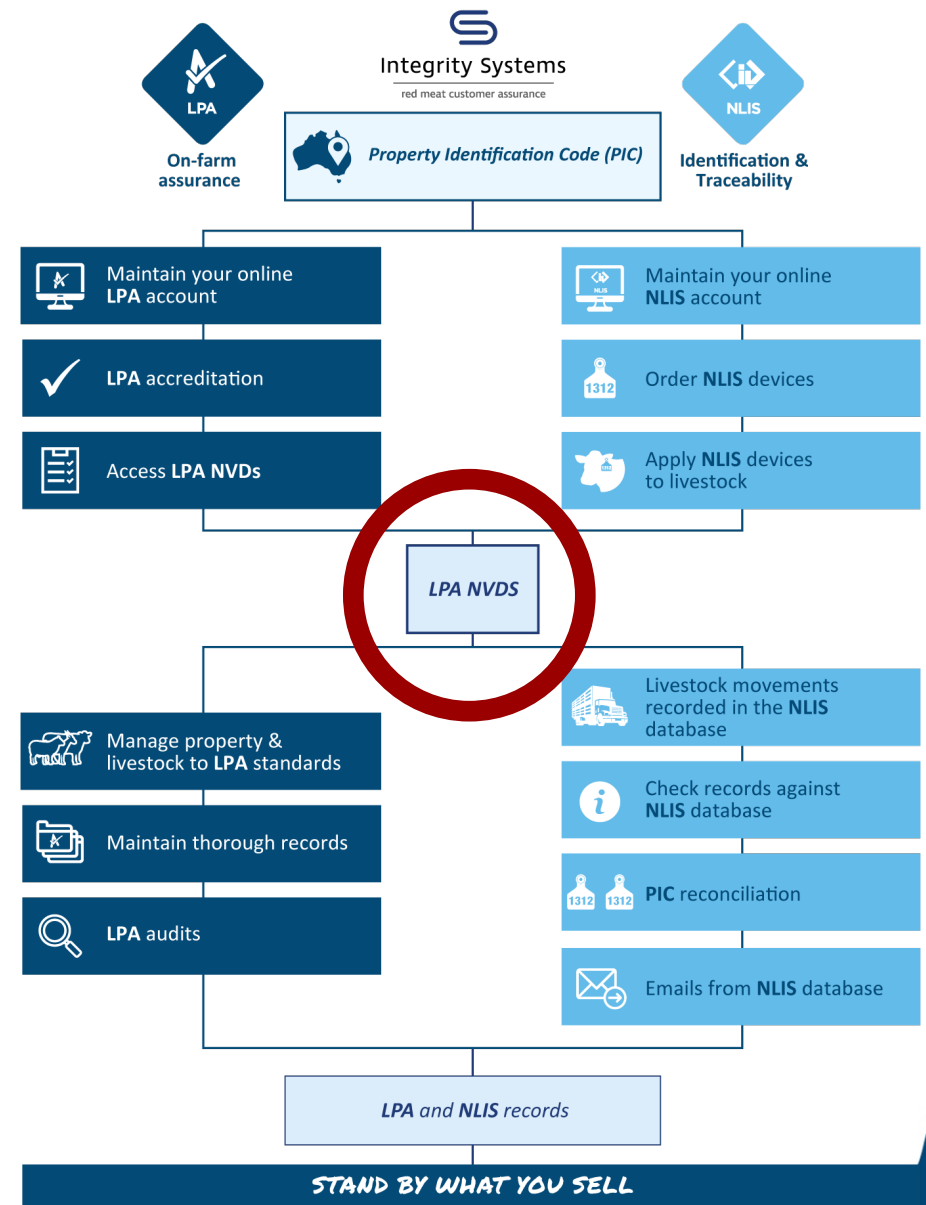

### Is the animal fit to load?

A national guide to the pre-transport selection and management of livestock Revised edition 2019

# LPA NVDs – what producers need to do

- Maintain your LPA accreditation to access LPA NVDs.
- NVDs are a legal document. When ticking boxes on an LPA NVD, it declares your on-farm practices meet LPA requirements ... and customers' expectations.
- A tick on an NVD needs to be backed up by accurate farm records. This is a pledge that meat has been produced safely, ethically and meets biosecurity requirements – it means you stand by what you sell.
- File your completed NVDs in case of audit. NLIS transfers are part of LPA audits.

# The Declaration

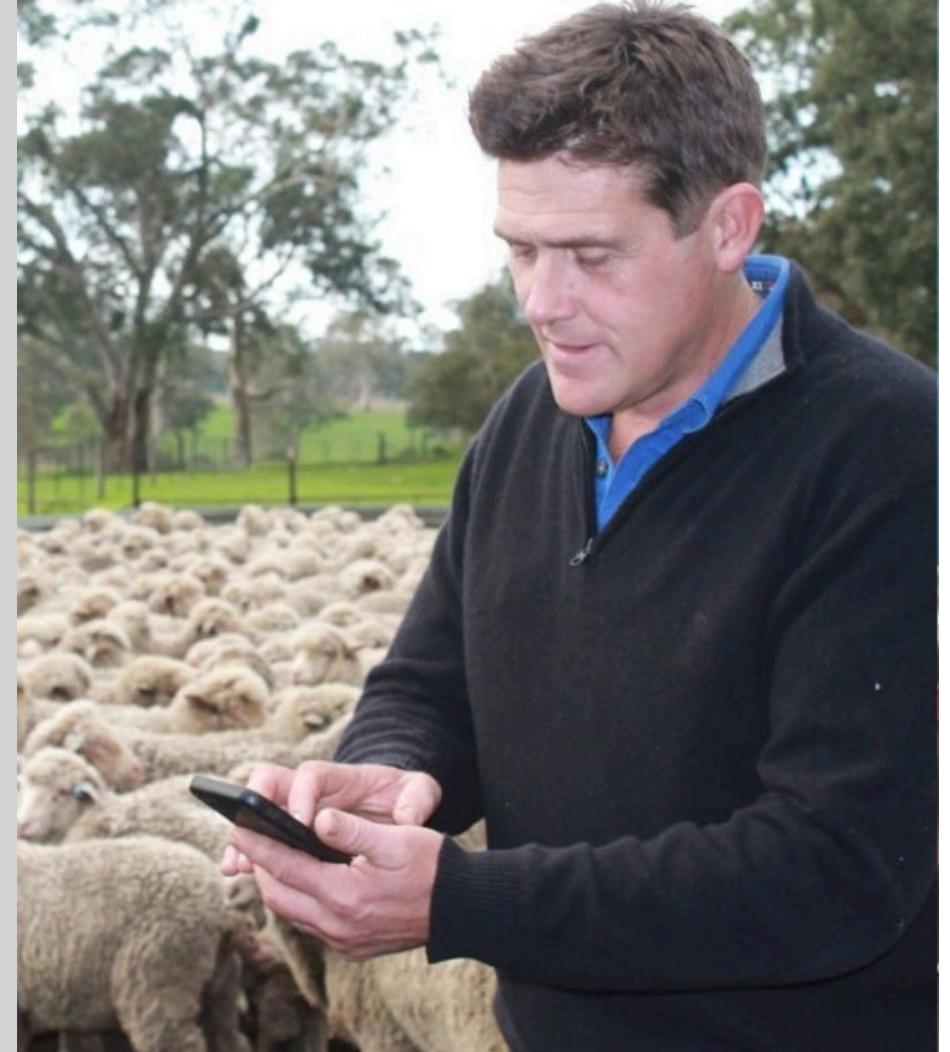

# LPA NVDs – top compliance issues

- ✓ Handwritten NVDs are not legible
- ✓ NVDs are not completed, ie, questions missed
- ✓ NVDs are not signed
- ✓ NVDs have both 'yes' and 'no' ticked, instead of one or the other
- ✓ The NVD form has been photocopied from a hard copy book or a sample NVD downloaded from the internet.
- ✓ Use of white-out to correct a mistake on a form. If mistakes are made, start the form again.

# The benefits of using eNVD

- Answer questions once
- Apply templates to save time
- Can be printed at any time
- Can be used on a mobile device
- Easy to read, understand and doesn't get lost
- \$30 discount on LPA accreditation/reaccreditation

# How to complete an eNVD Login using your LPA credentials

The screenshot displays the Integrity Systems myMLA Dashboard. At the top, it shows the user is logged in as 'GANGJO@GMAIL.COM (QENR252-2285176)' with options for 'LOG OUT' and 'myMLA Dashboard'. The main navigation bar includes 'HOME', 'ACCOUNT', 'ENVD', 'ORDER BOOKS', 'LEARNING', and 'HELP'. A notification banner states: 'Need help? ISC Customer Service hours have been extended. ISC Customer Service is now available to assist producers from 8am to 7pm AEST, Monday to Friday. Contact ISC Customer Service on 1800 683 111. Find out more here'. The central content area features a 'Hi Paul & Jo' greeting and a profile section with fields for PIC, User ID, Trading as, Email, and Phone, along with an 'Edit profile' link. A prominent 'eNVD' section encourages switching to the faster, easier, and more accurate way to complete consignment paperwork, listing supported services: NVD, MSA, NFAS, Health Declaration, and EU accreditation. An 'Access eNVD' button is provided. Below this, three icons represent 'LEARNING', 'RECORD KEEPING', and 'ORDER BOOKS'. On the right, buttons for 'ACCESS THE LATEST INTEGRITY SYSTEMS NEWS', 'PRIVACY POLICY', and 'USEFUL LINKS' are visible.

# eNVD - Create a new consignment

Submit

# NLIS – what producers need to do

- Keep your online NLIS account details up-to-date
- Order and use NLIS tags for every animal on your PIC
- Record movements of livestock in the NLIS database. **The timeframes for property to property transfers vary so check what is required for your state.**
- Regularly compare your records to the NLIS database to ensure transfers are completed
- Do a PIC reconciliation if there are differences. If ISC emails you about these, investigate the error.

# Recording livestock movements through NLIS

- You must record all livestock movements onto your PIC on the NLIS database to remain LPA-accredited.
- If livestock are bought, sold or moved through saleyard, the movement must be recorded by the saleyard
- For private sales, the receiver must record the livestock movement
- The vendor is not obligated to record the movement, although they may do so
- All livestock consignments must be accompanied by a form of movement documentation

## INTEGRITY INSIGHT

State legislation also requires that the buyer or receiver of the livestock completes the transfer on the NLIS database.

Penalties may be imposed by your state or territory government for failing to complete these transfers as required.

The screenshot shows the NLIS Producer home page. At the top, there are logos for Integrity Systems and the National Livestock Identification System. A navigation bar includes links for HOME, NLIS INFORMATION, GLOSSARY, CONTACTS, and HELP. Below this, a user profile section displays 'User ID: NLISPROD', 'Account type: Producer', and 'Livestock types: Cattle, Sheep (individual), Sheep (mobs), Goat (mobs), Goat (individual)'. A notification indicates '(32) unread notifications'. The main content area is titled 'Producer home' and includes a 'Welcome Bob' message. Below the welcome message, there is a 'Which livestock do you want to work with?' dropdown menu with 'Cattle' selected. There is also a 'What do you want to do today?' dropdown menu with '(Please select)' chosen. A 'Go' button is located at the bottom right of the dropdowns. At the bottom of the page, there is a footer with links for 'NLIS Information', 'NLIS Terms of Use', 'Website Terms and Conditions', 'Privacy Policy', and 'Sitemap', along with the text 'Integrity Systems Company Limited (ISC Ltd) ABN 34 134 745 039 © 2021'.

# Integrity Insights – NLIS

Checking the database, transfers, PIC reconciliations ...

Need help navigating the NLIS database? ISC has a series of detailed Tech Tips files.

Stay tuned for a new 'how-to' series coming soon ...

## Tech Tips

NLIS DATABASE

Feedlot    Producer    System Administrator    Third party

National Livestock  
Identification System Ltd

September 2017

### PIC Reconciliation by file upload

1. What is a PIC reconciliation?
2. Why do a PIC reconciliation?
3. How do I perform a PIC reconciliation?
4. How do I create a file for a PIC reconciliation?

#### 1. What is a PIC reconciliation?

A PIC Reconciliation is a stocktake of all electronic cattle devices on a property. This process identifies discrepancies between the **total** number of electronic devices **physically on** a property, and the number of electronic devices **registered to** that property (PIC) on the NLIS Database. At the end of the

### INTEGRITY INSIGHT

Check the NLIS database whenever transfers have been completed to ensure the numbers are correct ... it can save a lot of time rather than correcting mistakes later.

# Integrity Insights – NLIS

What is early warning status?

- Early warning is a status within the NLIS database automatically assigned to a property carrying high-risk animals
- While it doesn't identify specific animals, it helps monitor and manage biosecurity risk for your farm and food safety along the supply chain.
- Statuses are listed on the NLIS database.

**Integrity Systems**

red meat customer assurance

Early Warning status (producers)

## How to use the Early Warning status (producers)

Early Warning (EW) is a status within the National Livestock Identification System (NLIS) database that is automatically assigned to a **property** carrying a high-risk animal or animals.

The EW status does not identify what the status is for, or which specific animals are high-risk.

The EW status helps monitor and manage food safety and biosecurity risk along the entire supply chain.

### INTEGRITY INSIGHT

**Program Requirements**

Seven requirements make up the LPA program. Producers who choose to participate in the LPA program commit to carrying out on-farm practices that feed into and support the integrity of the entire system. This integrity is verified when producers sign LPA NVDs for livestock movements.

- 1. Property risk assessments
- 2. Safe and responsible animal treatments
- 3. Stock foods, fodder crops, grain and pasture treatments
- 4. Preparation for dispatch of livestock
- 5. Livestock transactions and movements
- 6. Biosecurity
- 7. Animal welfare
