

Traceability webinars

ISC Webinar Series - 2026

Integrity Systems

red meat customer assurance

Traceability is essential in the livestock industry for food safety and quality assurance. Traceability, from on-farm through the supply chain, enables the Australian red meat industry to protect our reputation of clean, safe and natural and underpins product quality.

In these upcoming webinars, ISC will take you through two key elements of traceability – sheep and goat eID and completing a PIC reconciliation on your property using the NLIS database.

Sheep and goat eID

Thursday 30 April, 7pm (AEST)

SA/NT: 6:30pm (ACST) | WA: 5pm (AWST)

Everything you need to know ahead of the national rollout of sheep and goat eID:

- Key dates
- NLIS devices – purchase and application
- NLIS demonstration – property to property transfer and accessing key reports

Register: bit.ly/4sNaELw

PIC reconciliation

Wednesday 6 May, 12pm (AEST)

SA/NT: 11:30am (ACST) | WA: 10am (AWST)

Make sure the livestock on your property match what's on the NLIS database:

- Who's responsible for doing transfers in the database
- How to keep your account updated
- How to do a PIC reconciliation for your property, ensuring the livestock on your property is reflected in the database
- How to add NLIS devices to a consignment in eNVD

Register: bit.ly/4b8FJTU

These webinars will provide handy tips to ensure you maintain traceability for your livestock.

A video recording and other resources will be sent to all registrants.
