No service? No problem

The new eNVD Livestock Consignments app is a mobile, offline solution for completing consignments.

The eNVD app overcomes connectivity challenges, saves time and prevents errors by enabling digital transfers through the entire supply chain from producer to transporter, saleyard, feedlot and processor.

The benefits of using the eNVD app:

- ✓ **Pre-populate answers to common questions across multiple forms**
- ✓ **Create templates to save time**
- ✓ **Can be used without mobile coverage**
- ✓ **Securely stored, always available online**
- ✓ **Always use the latest NVD versions**
- ✓ **$30 discount on LPA reaccreditation**

To watch a live demonstration of the eNVD app and have your questions answered by ISC's team of experts, register for one of the following sessions:

STREAMLINE YOUR NVDS

"My advice to anyone feeling a bit left behind by technology is to give the eNVD app a go.

It is a very streamlined way of filling out NVDs, you can search for your receiver's PIC within the app, and you don't have to worry about running out of paper NVDs or having an out-of-date NVD book. I think the most exciting thing with the app is the fast and easy traceability down the supply chain."
