LPA AUDITS

What you need to know about LPA audits

Livestock Production Assurance (LPA) is the independently audited, quality assurance program that delivers food safety, biosecurity and animal welfare outcomes on-farm. LPA accreditation enables access to LPA NVDs which are a declaration and guarantee to buyers.

All LPA accredited producers – from large scale operators to hobby farmers – may be audited to check how records are maintained and how food safety, biosecurity and animal welfare management is carried out.

This webinar is ideal for anyone handling livestock – farm owners, managers, overseers and farm hands.

Join this session to find out what to expect during an audit, how to prepare and how audits can help – not hinder – your farm business.

Find out what you need to know at this **FREE one-hour webinar!**

Date: Tuesday 27 September 2022 | Time: 8.00pm - 9.00pm (AEST)

Have you tried the electronic National Vendor Declaration (eNVD)?

eNVD is the fast, easy system for completing all livestock consignments digitally.

The benefits of using eNVD:

- ✓ Answer questions once
- ✓ Create templates to save time
- ✓ Can be printed at any time
- ✓ Can be used on a mobile device
- ✓ Easy to read, understand and doesn't get lost
- ✓ \$30 discount on LPA accreditation/reaccreditation
