Property Identification Code (PIC) of the Property receiving cotton gin trash	
Trading name of the business operating the PIC and Property	
Full name of owner / manager of the PIC and Property	
Physical address of the Property	
Part C: Delivery details	
Amount of cotton gin trash to be delivered to the Property	
Date of first delivery	

Declaration

I, _____
(print full name), declare that I am the owner / manager of the Property and PIC identified above, and I agree to abide by the following requirements as a condition of receiving cotton gin trash from the cotton gin named above. Specifically, I warrant that:

1. The Supply Details given above are correct and I authorise and direct the Supplying Gin to provide this form signed by me to the Livestock Production Assurance (LPA) administrator.
2. I will provide a copy of this declaration to the LPA administrator within seven (7) days of it being signed.
3. I have been provided by the Supplying Gin with a completed Commodity Vendor Declaration for the supply of this cotton gin trash.
4. I have been provided with, read and understood the fact sheet attached to this declaration which lists the residue and commercial risks associated with having cotton gin trash delivered to the Property for feeding to livestock or for use as mulch.
5. In accepting delivery of cotton gin trash to the Property, I agree that the Property Identification Code (PIC) for that Property will have an "Accessed Cotton Gin Trash" status applied which will be disclosed on the NLIS database.
6. Livestock that have had, or may have had, access to cotton gin trash either as stock feed or as mulch must be grazed on clean feed for a period of at least 60 days prior to dispatch for slaughter or export (Clean Feed Period).
7. Livestock resident on the Property will have an "Accessed Cotton Gin Trash" device-based status applied to their individual NLIS devices and that status will be disclosed on the NLIS database; this status will remain active until the livestock have been verified as having completed the Clean Feed Period.
8. An Approved Auditor will verify the commencement date of the Clean Feed Period by completing and signing an LPA Clean Feed Verification Form, provided by the LPA administrator (**Verification**). This Verification will be arranged by me at my own cost.
9. If livestock are moved to another PIC prior to the completion of their Clean Feed Period, this status will remain active until this Clean Feed Period has been completed.
10. Movement of any livestock from the Property within their Clean Feed Period will be notified by me to the NLIS database within one (1) day of that movement having taken place.
11. If moving livestock to another PIC prior to the completion of the Clean Feed Period, I will disclose on the LPA National Vendor Declaration (NVD) that these livestock have, or may have, accessed cotton gin trash.
12. I will provide to the LPA administrator this Verification within two (2) days of it having been signed, together with a list of NLIS devices attached to the livestock that are verified as being grazed on clean feed.
13. I have a management plan in place to ensure the production system allows access to clean feed for 60 days, and I acknowledge that the Property will be subject to the LPA random audit process to ensure such a management plan is in place.

Date: Signed:

The producer must retain a copy of this Alternate Feedstuff Declaration (Cotton Gin Trash) and Commodity Vendor Declaration for seven (7) years as part of LPA record-keeping requirements and provide it to an LPA auditor upon request.
