

eNVD:

how to access consignment forms submitted via eNVD

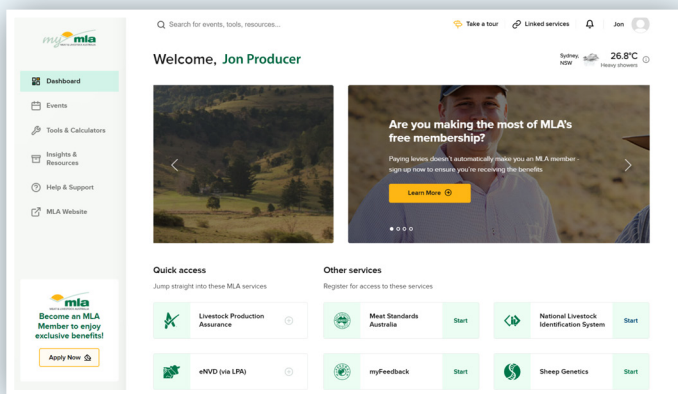

Processor

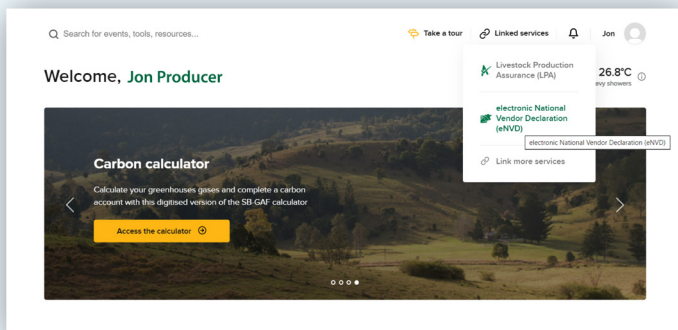

To access eNVDs you must have created a myMLA account and linked your NLIS account.

1 Follow the steps in this guide www.integritysystems.com.au/link-accounts-in-mymla to create a myMLA account and link your NLIS accounts.

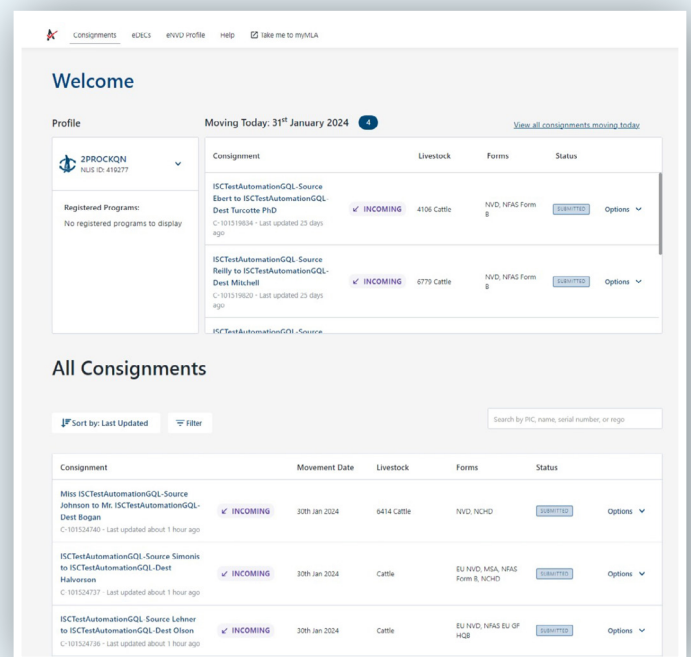

2 Once you have created a myMLA account and linked your NLIS account, this is what your personalised myMLA dashboard will look like.

3 To access eNVDs, select the eNVD tile under the image, or select eNVD from the 'Linked services' dropdown in the top menu.

4 You will now be able to view the eNVD web platform, listing all consignments that have been sent/consigned to your establishment PIC.

CONSIGNMENTS MAY BE 'SUBMITTED' OR 'COMPLETED'

SUBMITTED

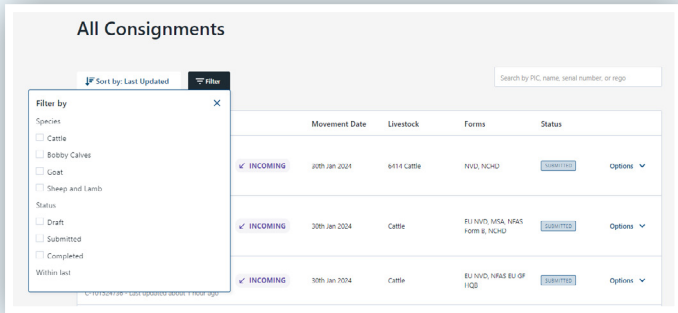

– can be edited or deleted by the sender/consigner

COMPLETED

– submitted consignments are locked 48 hours after the movement date and cannot be edited or deleted

5

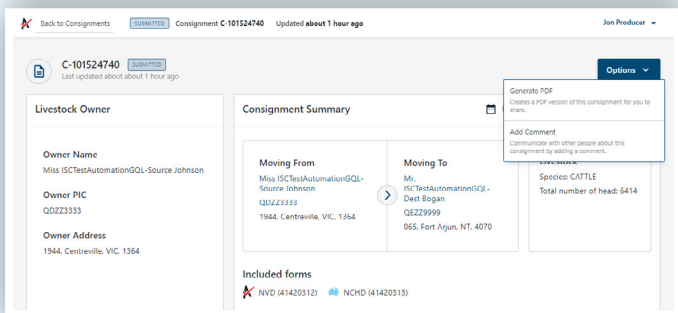

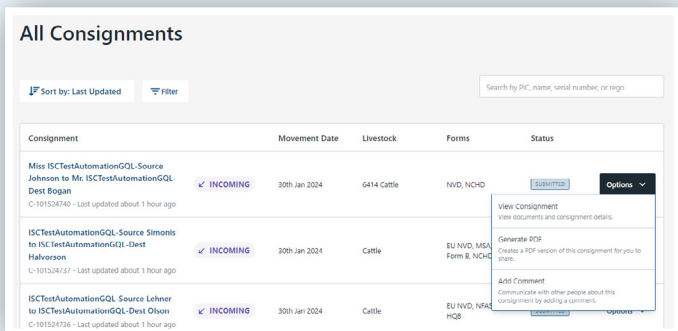

Use the Filter, Sort and Search options to refine your consignment list. You can sort by last updated, movement date, or created date. Filters can be used to find consignments by livestock, status and timeframe. You can search using name, PIC or consignment number.

6

To view a PDF copy of the forms that have been submitted as part of any consignment (e.g. NVD, EU NVD, MSA, NFAS, NCHD etc) click the 'Options' dropdown and select 'Generate PDF'.

Alternatively, click on the consignment to view the summary page, and then select 'Generate PDF' from the options dropdown.

Adding comments

Anyone involved with a consignment - producer, receiver, transporter, authenticated viewers - can add comments to a submitted consignment.

To add a comment, click to view the consignment summary. Scroll to the bottom of the page to view 'Comments'. Click in the text box and add your comment. Each comment has a character limit of 256 and comments cannot be edited or deleted.

When you've added your comment, click 'Add comment'. This comment is now visible to everyone associated with the consignment.

Accessing consignments via the eNVD API

Any information you can access via the eNVD web platform (including PDFs), is also available via the eNVD API. Information on using the eNVD API is available at developer.integritysystems.com.au/api-explorer/#envd-.

For assistance, please contact ISC Integration Analyst, Peter Quigley at developersupport@integritysystems.com.au or by calling (02) 9436 9246 during business hours.
