

LPA REQUIREMENT #4 – Preparation of livestock for dispatch

Every LPA-accredited producer must take steps to ensure livestock are fit for transport and minimise the risk of stress and contamination of livestock during assembly and transport. All livestock must be NLIS identified in accordance with relevant statutory requirements at all times.

No. of livestock	Description <i>(breed, sex and age)</i>	Yarding	Dispatch	Fit to load?	Do all livestock have NLIS devices applied?	Any known risks / comments
		Date/time	Date/time
