

# LPA REQUIREMENT #6 – LPA property visitor register template

A property owner is required to keep records, where reasonable and practicable, of visitor movements onto and around their property. This both reduces the risk of a disease or pest incursion occurring and strengthens the property owner’s and authorities’ ability to trace an outbreak’s origin and contact visitors who may have been exposed to potential contamination on-farm.

Date	Name	Company	Phone	Reason for visit	Farm area visited	Time in	Time out
