PRODUCERS
AUSTRALIA

INTRODUCTION

1. Welcome and housekeeping
2. Introduce our partners and speaker
3. Stand By What You Sell Webinar
... look out for our Integrity Insights!
4. Q&A with the ISC team
5. Webinar wrap-up

PRESENTATION PARTNERS:

SUPPORTED NATIONALLY BY:

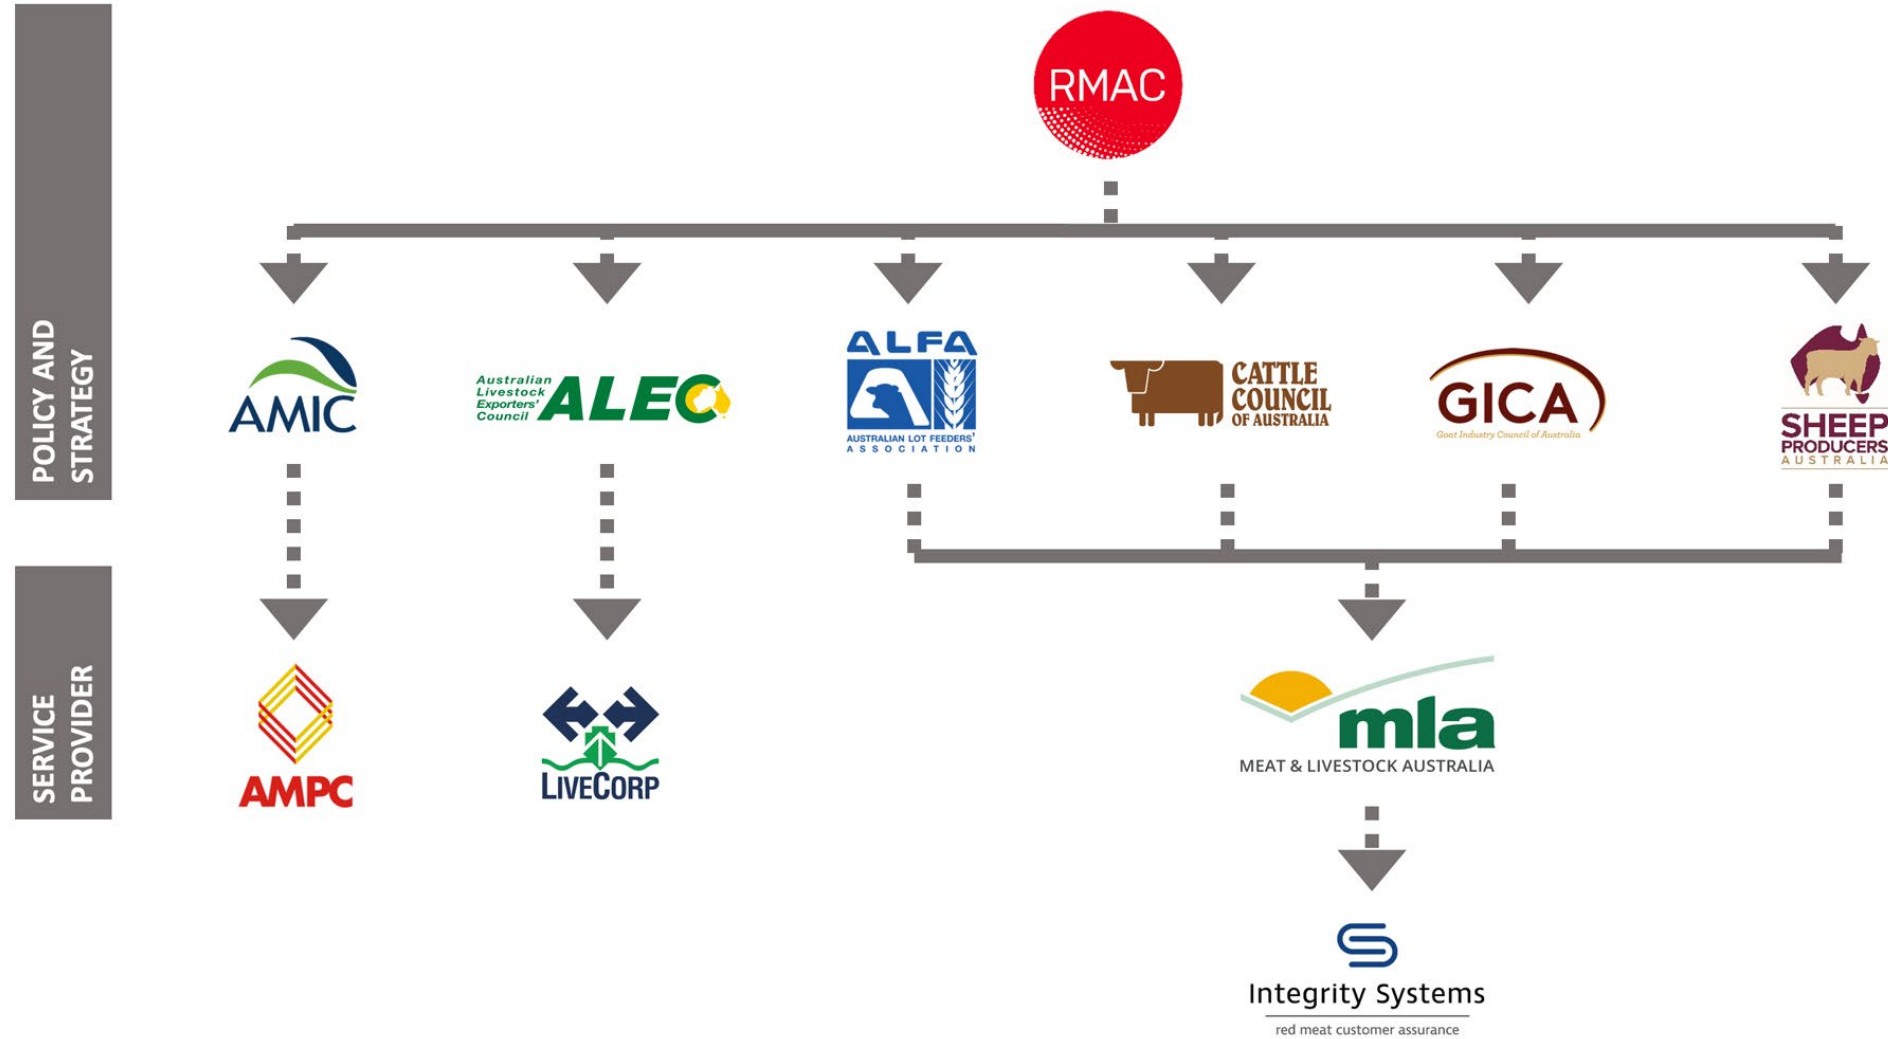

Today's agenda

- The role of the Integrity Systems Company
- What is the red meat integrity system and why it's important
- The integrity system programs - LPA and NLIS
- Changes to NVDs
- The faster, easier eNVD platform
- Get all your integrity accounts in the one place with myMLA

Integrity Systems Company (ISC)

A subsidiary of Meat & Livestock Australia

About MLA

- Research, Development and Adoption
- Marketing
- Collaborate with Australian Government and wider red meat industry
- Invest in initiatives that contribute to:
 - ✓ Producer profitability
 - ✓ Sustainability
 - ✓ Global competitiveness

About ISC

Integrity Systems Company manages and delivers Australia's red meat integrity system.

This system that underpins consumer confidence in on-farm production of Australian red meat, covering:

- **On-farm assurance** through the Livestock Production Assurance (LPA) program
- **Identification and traceability** of livestock through the National Livestock Identification System (NLIS)

Integrity Systems

red meat customer assurance

Stand by what you sell

The red meat integrity system ...

- Ensures Australian red meat is safe to eat and fully traceable
- Provides on-farm assurance, animal identification and traceability from paddock to plate
- Underpins the livestock selling system, giving confidence to buyers, retailers and consumers

Integrity Systems

red meat customer assurance

Identification & Traceability

On-farm assurance

Why it's so important!

\$28 billion industry
400,000 jobs

80,000 businesses
100 global markets

Mad cow disease UK:

Could mad cow disease come back?
What are the symptoms?

Consumer groups rate fast-food chains on their use of beef produced with antibiotics

Defra plans to introduce new system to record livestock movements by next September

Race for African swine fever vaccine as disease kills estimated 200 million pigs globally

New foot-and-mouth disease case confirmed in Limpopo

We all have a role to play to stand by what we sell

Two programs work together to underpin food safety and traceability on-farm

LPA: On-farm management of food safety, animal welfare and biosecurity risks.

On-farm assurance

Identification & Traceability

NLIS: Tracks the location of every animal throughout its life.

LPA ... What it means on-farm

LPA accredited producers commit to carry out on-farm practices that support the integrity of the entire system. This is verified when producers sign LPA NVDs for livestock movements:

1. Property risk assessment
2. Safe and responsible animal treatments
3. Stock foods, fodder crops, grain and pasture treatments
4. Preparation for dispatch of livestock
5. Livestock transactions and movements
6. Biosecurity
7. Animal welfare

NLIS ... What it means on-farm

NLIS combines three elements to enable the lifetime traceability of animals:

1. All livestock are identified by a visual or electronic eartag/device.
2. All physical locations are identified by means of a Property Identification Code (PIC)
3. All livestock location data and movements are recorded in a central database.

LPA NVD ... What it means on-farm

LPA NVDs bring together all on-farm assurance, identification and traceability details - the basis for ensuring a safe and traceable food product.

1. The LPA NVD captures food safety information on every animal, every time it moves from property to property, to processors or saleyards.
2. NVDs provide evidence of livestock history and on-farm practices when transferring livestock through the value chain.

TRUSTED BY
CONSUMERS.

VALUED BY
INDUSTRY.

NVD changes in 2020

- Changes to NVD versions for all species
- New eNVD system released
- eDEC decommissioning

Stand by what you sell

New versions of LPA NVDs for all species NOW AVAILABLE

Identified by version number 0720

Current versions accepted until
31 DECEMBER 2020

New versions only (0720) from
1 JANUARY 2021

eDEC decommission timeline in 2020

30 APRIL

Token purchases end

30 April –
31 December

Tokens previously
purchased can be used

31 DECEMBER

eDEC access ends

- New eNVD covers all information the eDEC does, but in a more user-friendly way.
- Running a single digital system will be a cost and time saving to industry.

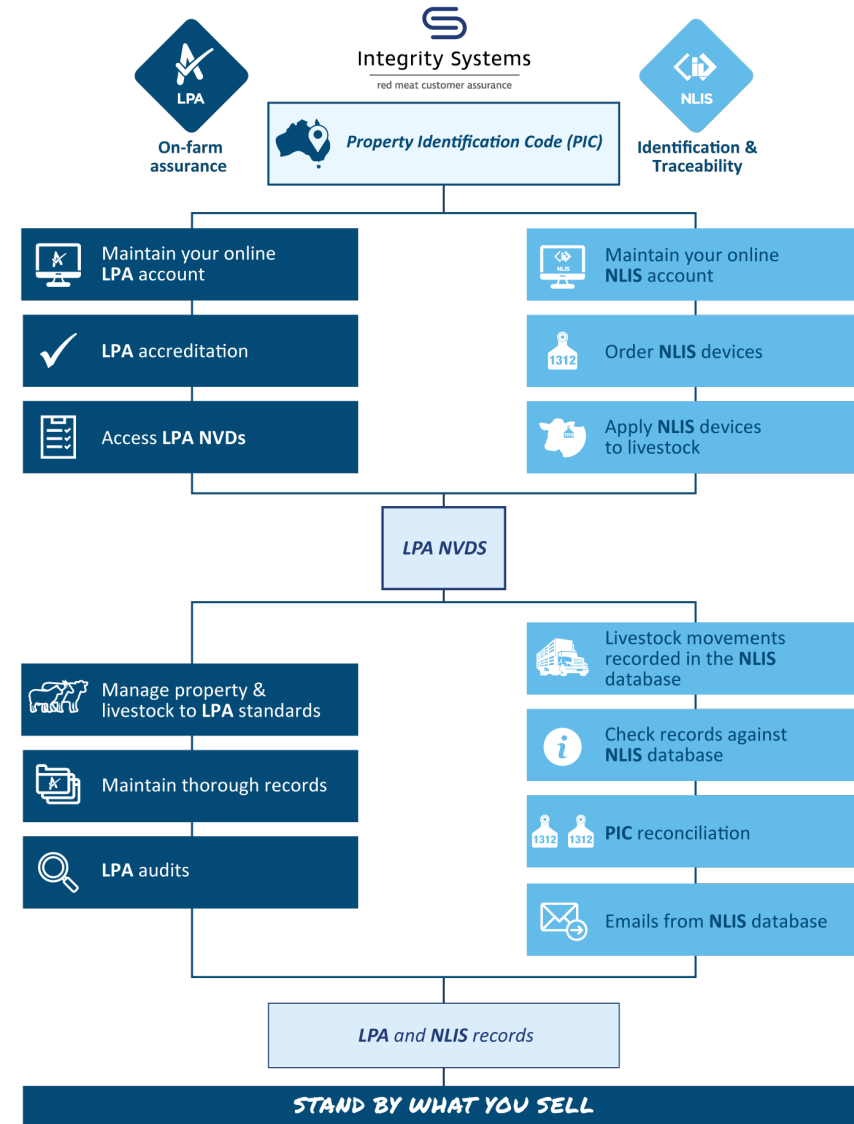

Can you stand by what you sell?

Practical tips for how producers can meet the requirements of Australia's red meat integrity system

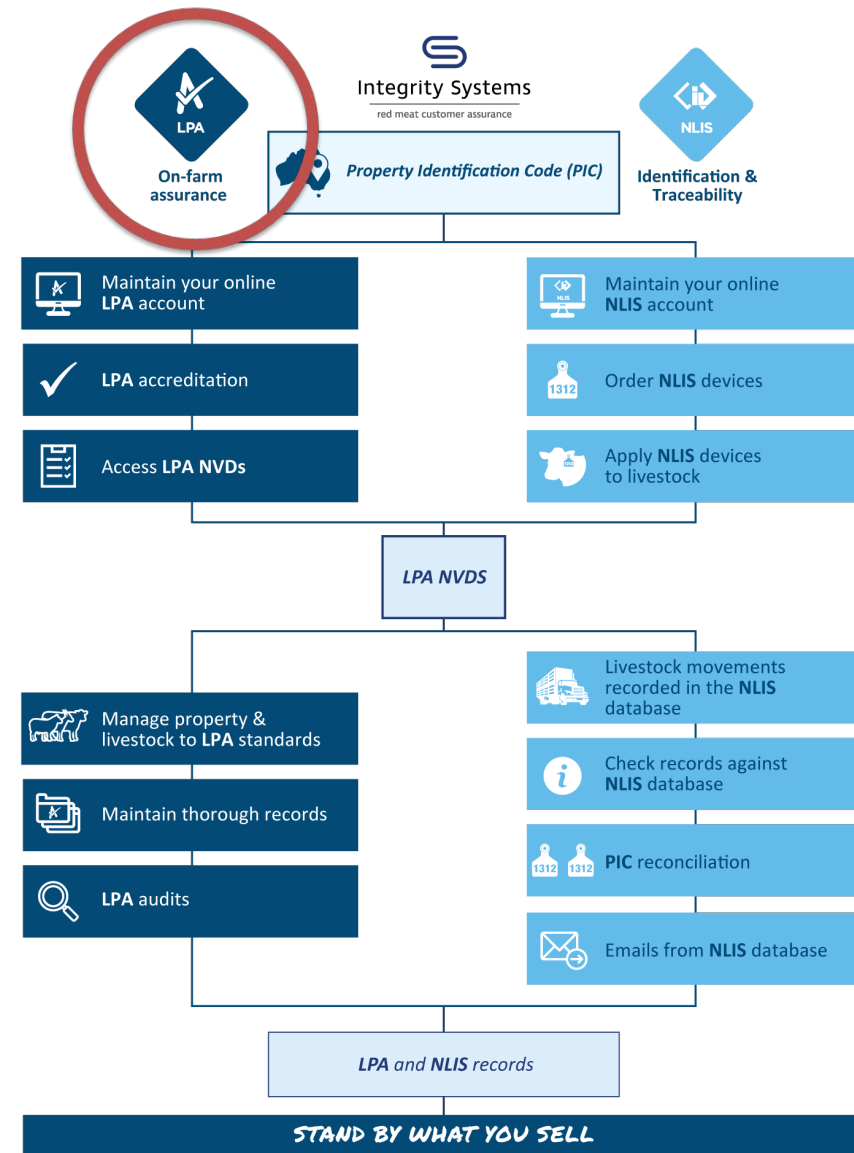

The red meat integrity system ... It's all connected!

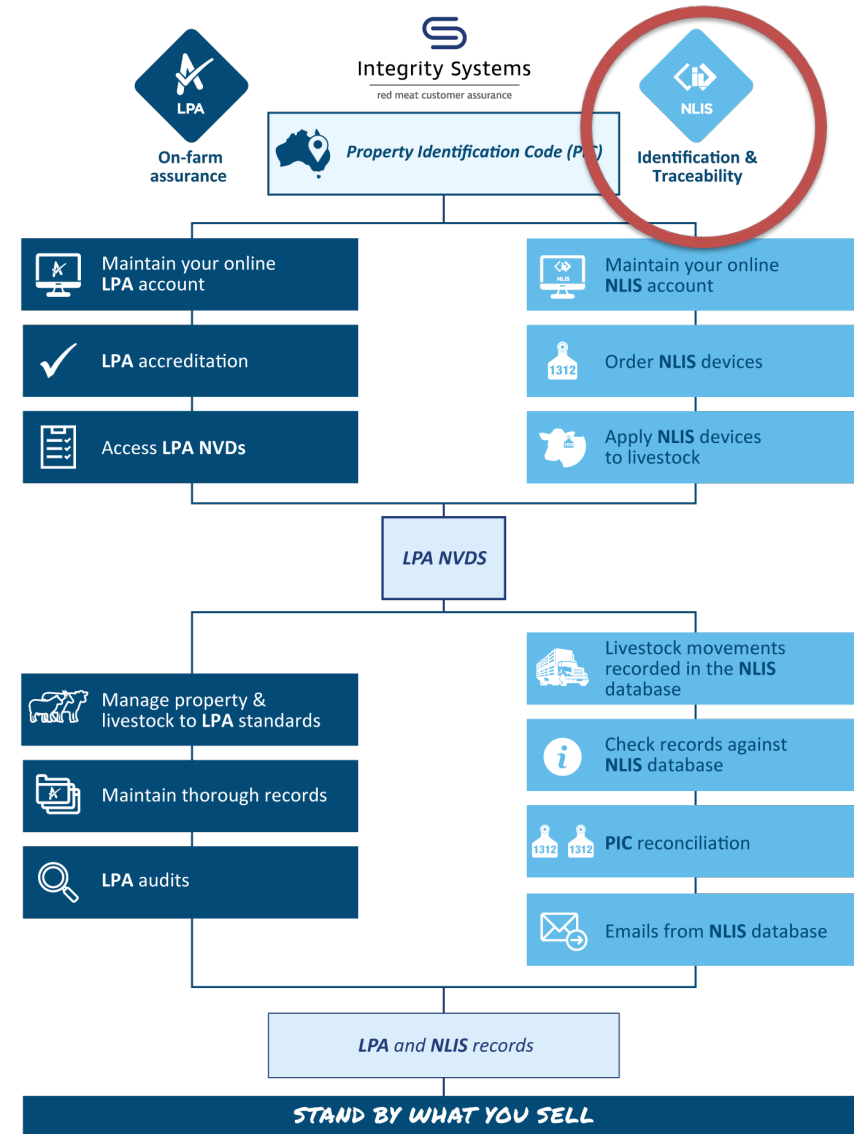

LPA – what producers need to do

- ✓ Keep your online LPA account details up-to-date
- ✓ Maintain your LPA accreditation and renew every three years
- ✓ Manage your property and livestock to the seven LPA requirements
- ✓ Keep thorough records as evidence of livestock history and on-farm practices
- ✓ Prepare for and participate in an audit, if requested

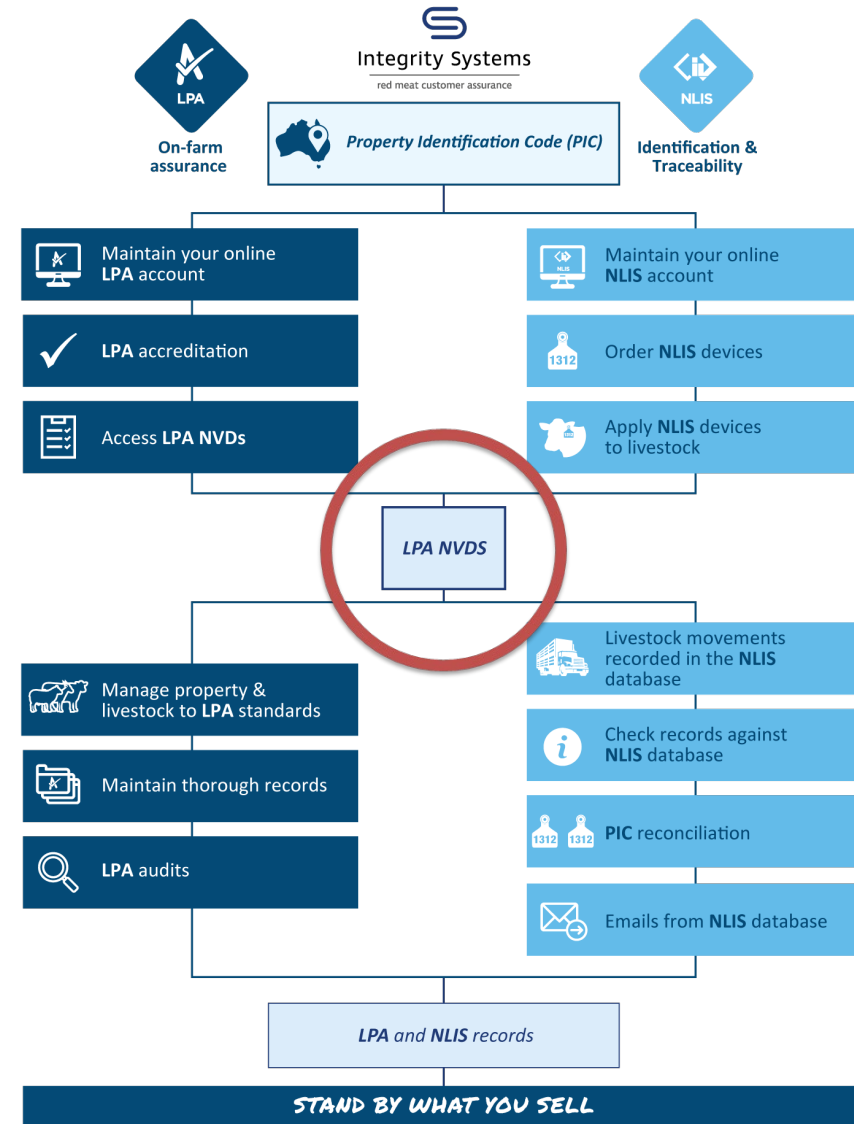

NLIS – what producers need to do

- ✓ Keep your online NLIS account details up-to-date
- ✓ Order and use NLIS tags for every animal on your PIC
- ✓ Record movements of livestock in the NLIS database. **The timeframes for property to property transfers vary so check what is required for your state.**
- ✓ Regularly compare your records to the NLIS database to ensure transfers are completed
- ✓ Do a PIC reconciliation if there are differences. If ISC emails you about these, investigate the error.

LPA NVDs – what producers need to do

- ✓ Maintain your LPA accreditation to access LPA NVDs.
- ✓ NVDs are a legal document. When ticking boxes on a LPA NVD, it declares your on-farm practices meet LPA requirements ... and customers' expectations.
- ✓ A tick on a NVD needs to be backed up by accurate farm records. This is a pledge that meat has been produced safely, ethically and meets biosecurity requirements – it means you stand by what you sell.
- ✓ File your completed NVDs in case of audit. NLIS transfers are part of LPA audits.

NVD

CLEAR

CORRECT

COMPLETE

Make sure it is complete and correct, so you can stand by what you sell.

Who is responsible for completing the LPA NVD?

- Part A:** The cattle owner or the person responsible for the husbandry of the cattle.
Part B: The livestock carrier.

Who keeps the copies?

- Top sheet:** (White) goes with the cattle to the purchaser.
Middle sheet: (Green) goes to the carrier.
Bottom sheet: (Pink) stays in the book and should be kept for auditing purposes.

How do I order copies of the LPA NVD?

- Go to www.integritysystems.com.au/nvd or
- Phone 1800 683 111

Where do I go for more information?

Go to www.integritysystems.com.au/lpa

Do not amend the pre-printed PIC. This NVD can ONLY be used for cattle located on this PIC.

Complete all details about the livestock, who they are consigned to and their destination. Use a separate line for each different group, split by breed and sex.

Contact receiver, agent or saleyards to find out correct destination PIC.

Only tick Yes or No in questions 1 to 8. Do not tick both.

If some of the consignment require you to tick Yes then this applies to the entire consignment.

NATIONAL VENDOR DECLARATION (CATTLE) AND WAYBILL C0720 388888888

This form cannot be used where eligibility for the EU market is required.

Part A To be completed by the owner or person who is responsible for the husbandry of the cattle.

Details of other statutory documents relating to this movement e.g. health statement: _____

Document type: _____ **Number:** _____ **Office of Issue:** 1/20 **Copy:** _____

1. Have any of the cattle in this consignment ever in their lives been treated with a hormonal growth promotant (HGP)? (Use a second document for mixed consignments.)
Yes No

2. Have the cattle in this consignment ever in their lives been fed feed containing animal fats?
Yes No (See Explanatory Notes)

3. Has the owner stated above owned these cattle since their birth?
Yes No If No, how long were the cattle obtained or purchased?
(If purchased at different times, tick the box corresponding to the time of the most recent purchase.)
A. Less than 2 months B. 2-6 months C. 6-12 months D. more than 12 months

4. In the past 60 days, have any of these cattle been fed by-product stockfeeds?
Yes No If Yes, attach a list of the by-product stockfeeds, date when last fed and a copy of an analyst's report if available.

5. In the past 6 months have any of these animals been on a property listed on the ERP database or placed under any restrictions because of chemical residues?
Yes No If Yes, give details:
Demize Pouron 29/1/2020 1/4

6. Are any of the cattle in this consignment still within a Withholding Period (WHP) or Export Slaughter Interval (ESI) as set by APVMA or SAFE MEAT, following treatment with any veterinary drug or chemical?
Yes No If Yes, give details: (Record additional details in question 9)
HotShot Herbicide 25/1/2020 7/30, 3/2020 15/4/2020

7. In the past 60 days, have any of the cattle in this consignment consumed any material that was still within a withholding period when harvested, collected or first grazed?
Yes No If Yes, give details:
Cattle health declaration (attached), vaccinated with 5 in 1 (2 doses) as weaners

8. In the past 42 days, were any of these cattle
a) grazed in a spray risk area; or
b) fed fodders cut from a spray drift risk area? (See Explanatory Notes for definition of spray drift risk area.)
Yes No If Yes, Date sprayed: 1/20

9. Please include any additional information below
eg: vaccination programs, animal health certification, additional declarations, etc.
Cattle health declaration (attached), vaccinated with 5 in 1 (2 doses) as weaners

Declaration
1. David Brazier Wintergreen RMB 123
(FULL NAME) (FULL ADDRESS)
Coonamble Rd, Warren NSW
(ADDRESS CONT.)

declare that, I am the owner or the person responsible for the husbandry of the cattle and that all the information in part A of this document is true and correct. I also declare that I have read and understood all the questions that I have answered, that I have read and understood the explanatory notes, and that, while under my control, the cattle were not fed restricted animal material (including meat and bone meal) in breach of State or Territory legislation.

Signature: David Brazier **Date:** 4/5/2020

Specific notes for NT producers ... from NT Government

- LPA NVDs are not currently a government legislative requirement in the Northern Territory.
- A NT Waybill is required for all cattle movements off a property in the NT, and a NT Health Certificate/Waybill is required for all movements into the NT from interstate.
- A NVD does not replace the NT Waybill or NT Health Certificate/Waybill.
- As part of the Livestock Act review the NT Government will be consulting with the Northern Territory Cattle Industry during 2020 on the industry position to maintain NT Waybills or to transition to legislated LPA NVD's with the additional information required for movements provided in an attachment to the LPA NVD.

MIXED CONSIGNMENT?

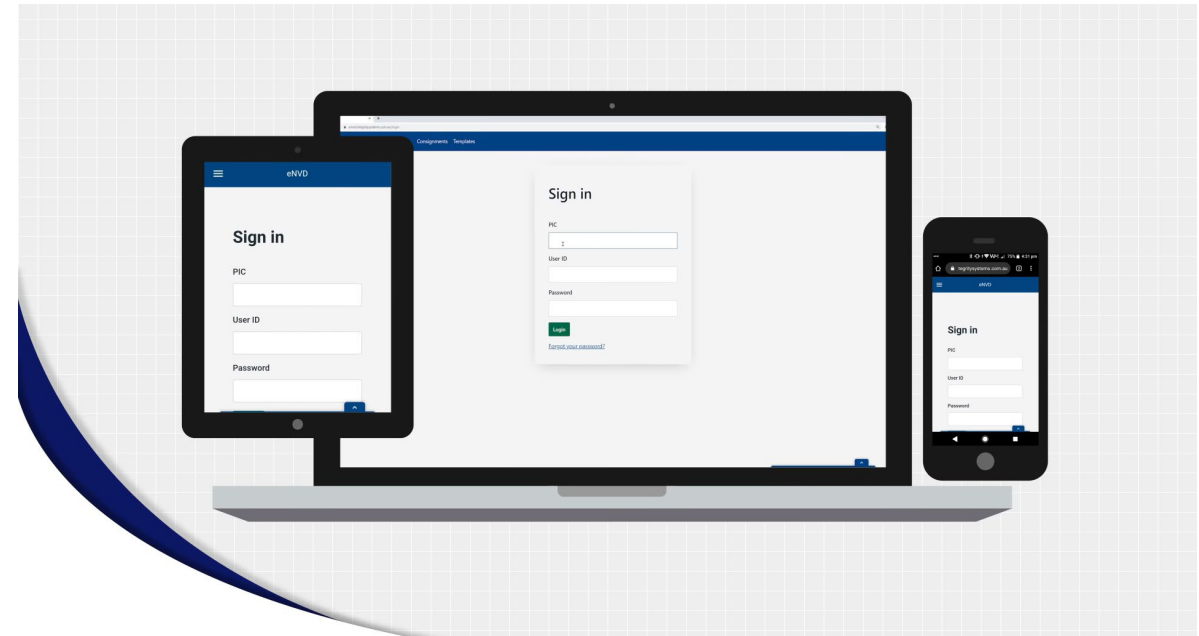

You can **divide them into groups** based on their history, and **do more than one NVD**

... as long as you can **identify and separate them**

Faster, easier, new eNVD system

- More accurate than paper
- Reduces time and duplication spent completing livestock assurance and health declarations
- Reduces the cost of storing and retrieving historical consignments for auditing, reporting and administrative purposes
- You don't need to wait for new NVD books to arrive

envd.integritysystems.com.au

Why this eNVD version is better ...

- Extensive consultation by ISC with supply chain stakeholders
- Rigorous testing, including by producers and the feedlot sector
- Print at any time, even incomplete
- Unlimited space for livestock descriptions
- Draw signature or brand using a touch-screen device or mouse
- New features and enhancements will be routinely released in response to feedback

New eNVD now available

Your go-to digital platform for livestock consignments.
Fast, easy and accurate.

integritysystems.com.au/nvd

Integrity Systems
red meat customer assurance

LPA

eNVD offline

- The eNVD application as it is now has been designed for the best user experience, this only represents the first phase of our enhancement plan for the system. **The next big step is conquering connectivity!**
- In the next 6 months ISC is undertaking significant user research to develop offline capability so that eNVD is available to all producers. This will be a range of solutions including but not limited to:
 - native mobile apps
 - bluetooth transfer of info etc
 - SMS & email notifications
- Watch this space, all enhancements for offline capability will be shared on the 'What's new' webpage

INTEGRITY INSIGHT

eNVD Updates

ISC continuously updates the eNVD to ensure it meets expectations and requirements. Updates are listed on the website. Email feedback to envd@integritysystems.com.au

Integrity insights – LPA NVD

Tips for filling out NVDs on the go ...

- Fill out as much as you can before going to the yards
- Don't get caught short ... order your new book early or use the eNVD
- Keep your LPA records up-to-date so the information to enter is ready to go.
- File the NVD ... keep a copy as part of your records
- Check the NLIS database to ensure transfers have occurred

Integrity insights - NLIS

Checking the database, transfers, PIC reconciliations ...

www.integritysystems.com.au/techtips

Need help navigating the NLIS database?
ISC has a series of detailed Tech Tips files.

Stay tuned for a new 'how-to' series
coming soon ...

PIC Reconciliation by file upload

1. What is a PIC reconciliation?
2. Why do a PIC reconciliation?
3. How do I perform a PIC reconciliation?
4. How do I create a file for a PIC reconciliation?

1. What is a PIC reconciliation?

A PIC Reconciliation is a stocktake of all electronic cattle devices on a property. This process identifies discrepancies between the **total** number of electronic devices **physically on** a property, and the number of electronic devices **registered to** that property (PIC) on the NLIS Database. At the end of the

INTEGRITY INSIGHT

Check the NLIS database whenever transfers have been completed to ensure the numbers are correct ... it can save a lot of time rather than correcting mistakes later.

Integrity insights - LPA

Align record keeping to the seven LPA requirements ...

Download free templates from ISC's website - search for 'LPA record keeping templates' → These include all the details that must be recorded.

Order a free printed copy before 30 June 2021. Call 1800 683 111 or visit:

Integrity insights - LPA

Record keeping ... practical tips to gather the base info

There is no perfect formula for record keeping! Here's some ideas to make it easier ...

- Ask your supplier to add the agchem/vet product batch number and expiry date to the invoice for your livestock treatment records
- Use your phone! Take photos of info on the box and file it with your livestock records
- When purchasing fodder (hay or grain) download a copy of a Commodity Vendor Dec (CVD) and ask the supplier to fill it in.

Integrity insights - LPA

What's involved in an audit?

- Don't panic, audits are about identifying areas for practical on-farm improvement
- Your LPA records will be reviewed by an auditor so its important to make sure they are accurate and up to date. They will give you tips ...

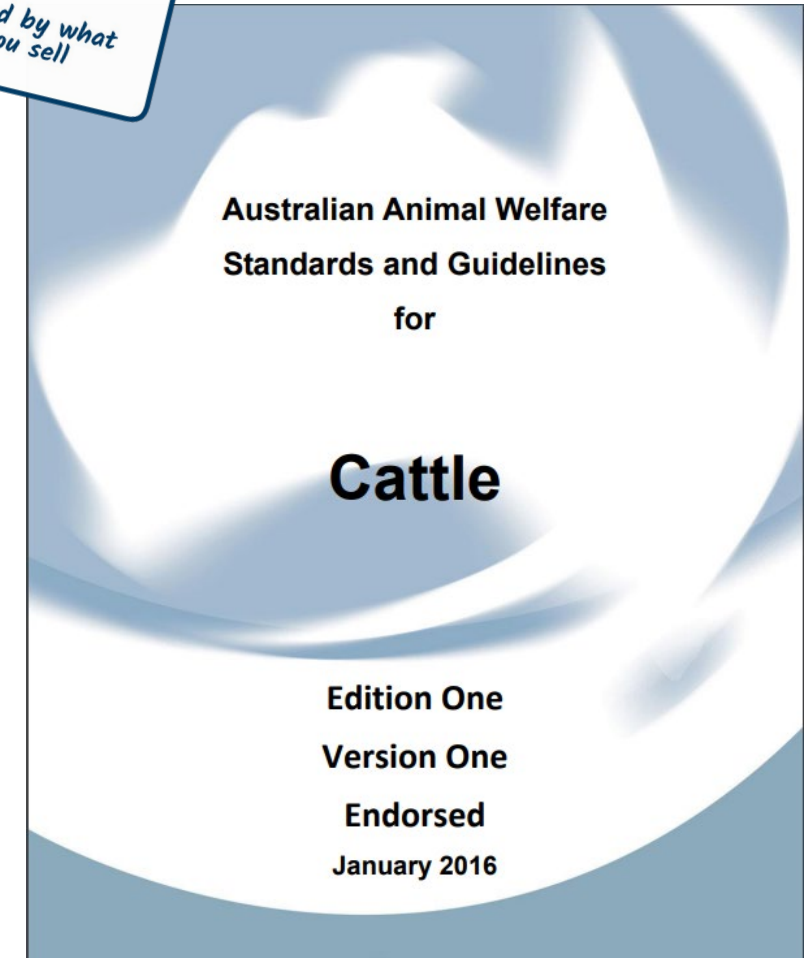

INTEGRITY INSIGHT

#DYK ... you need a copy of the Australian Animal Welfare Standards and Guidelines on-hand for your LPA audit? → Download it and save it so all your team members can access it!

www.animalwelfarestandards.net.au

You also need a completed Animal Welfare certificate – from the LPA Learning modules.
